Item ID: A1 (Is Genesis History?)

- **Format:** DVD
- **Length:** 101 minutes
- **Ages:** Teens – Adults
- **Publisher:** Compass Cinema
- **Published:** 2017

Join Dr. Del Tackett of *The Truth Project* as he hikes through canyons, climbs up mountains, and dives below the sea to explore the truth behind the history recorded in Genesis.

Includes "A Useful Little Guide to the Film" booklet

The powerful & superb documentary shown in sold-out theaters across the country.

Is Genesis History? is a comprehensive documentary featuring over a dozen scientists and scholars looking at the world and explaining how it intersects with the history recorded in Genesis. From rock layers to fossils to lions to stars, this fascinating film will challenge and change the way you see the world.

Is Genesis History? shines new light on our origins, providing a positive argument for Biblical Creation and the Flood. Dr. Del Tackett, creator of *The Truth Project*, serves as your guide—hiking through canyons, climbing up mountains, and diving below the sea—in an exploration of two competing views ... one compelling truth.

- The Church and Creation- Douglas Kelly, PhD - 12 min

I am thrilled that we were able to support this high-quality documentary. Two of our AiG scientists—geologist Dr. Andrew Snelling and astronomer Dr. Danny Faulkner—were interviewed for the film, along with many other highly qualified creation scientists. **Through scientific, theological, and historical data, the question “is Genesis history?” was answered with a resounding “yes!”**

I encourage everyone to watch this powerful documentary. Pastors and churches, consider streaming the film for your congregation or youth/young adult group. Invite skeptics to come and be challenged by the authority of God’s Word—beginning in Genesis—and by the amazing evidences that are shown. Christian schools and homeschooling parents, show it to your students in science class. Parents and grandparents, sit down with your kids or grandkids and enjoy a movie night that will equip you to stand firm in your faith. Everyone should watch this documentary!

—Ken Ham, President of Answers in Genesis & The Ark Encounter

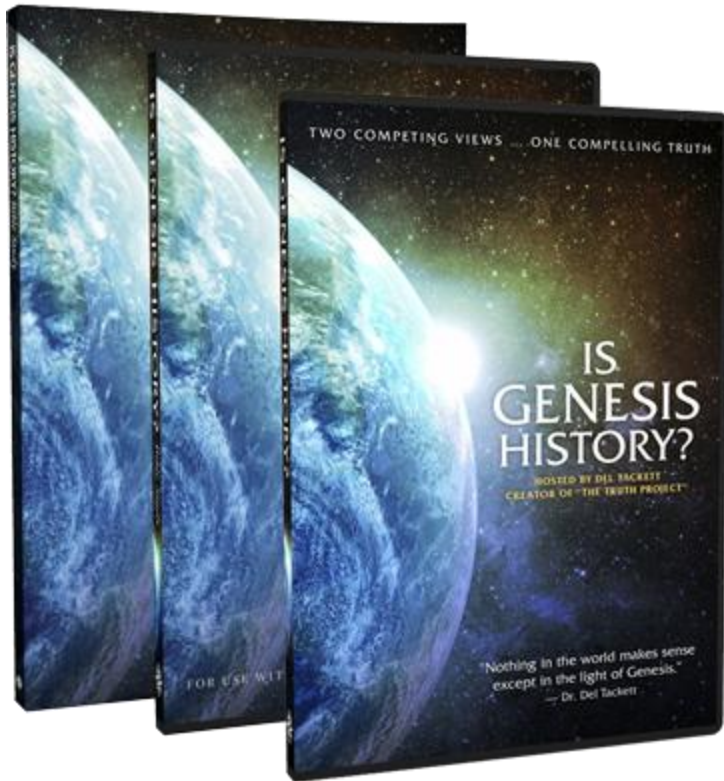

With its beautiful photography and masterful use of leading PhD creation scientists, this powerful film will encourage the faith of Christians who believe Genesis regarding Noah's Flood and the age of the earth, and challenge Christians who have accepted millions of years to rethink that position. I believe it will penetrate the minds of non-Christians, too, opening them to the truth of the Bible and therefore the truth of the gospel. May God mightily use this film in many people's lives and help to call our nation back to the Word of God and from nation-destroying moral insanity.

—Terry Mortenson, PhD, Answers in Genesis

Audience:	General
Closed Captions:	No
Subtitles:	No
Format:	DVD, Region 0, NTSC
Run Time:	94 Minutes

Have humans always been humans? Were animals designed? How can we make sense of the evidence we see?

In this DVD presentation, ICR's Frank Sherwin explores the scientific wonders and mysteries of God's living creation. Along the way, we see exquisite design in the fruit fly, the planthopper nymph, the human brain, and DNA. In each example, we find that God's power is clearly seen.

From variations within kinds to the design of living organisms, evidence confirms that science and the Bible agree.

In an extended Q&A session following the presentation, Sherwin discusses some of the most frequently asked questions about science and the Bible.

Unlocking the Mysteries of Genesis - 12 DVD Combo Set

Unlocking the Mysteries of Genesis presents evidence that confirms the biblical account of creation and offers defensible answers to some of the most provocative and controversial questions of faith and science. How did life begin? Where did humans come from? Was Noah's Flood real? How old is the earth?

In each dynamic 22-minute episode, host Markus Lloyd guides the viewer on a memorable journey through some of the most fascinating topics in creation science. Through interviews with the leading creation scientists, insights from cutting-edge research, and on-location investigations, Unlocking the Mysteries of Genesis presents evidence that supports a biblical viewpoint and dispels pervasive and inaccurate theories from the secular world.

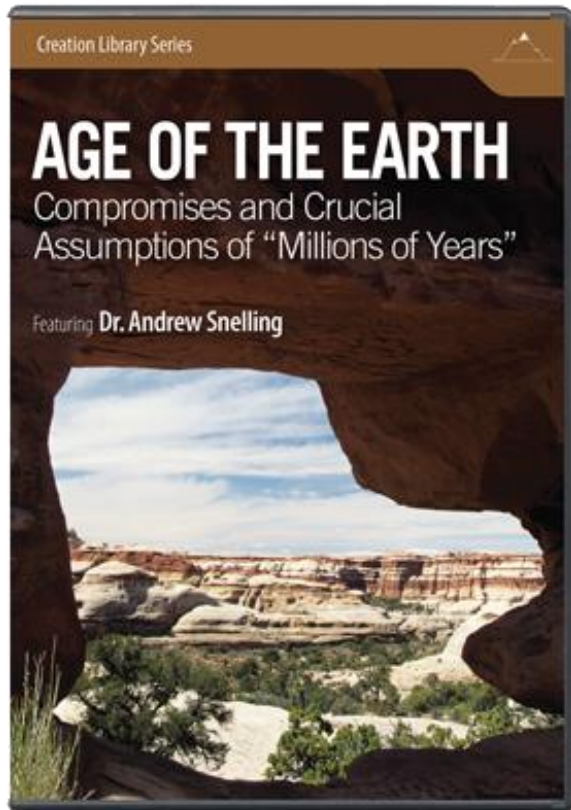

Developed by the Institute for Creation Research, one of the world's leading creation research organizations, this outstanding series provides an engaging exploration of creation science like never before. Together with the [112-page viewer guide](#), Unlocking the Mysteries of Genesis is an excellent resource for church, home, or academic study. Christians of all ages can find many of the answers they need to affirm and defend their faith and to discover the harmony between Scripture and science.

Unlocking the Mysteries of Genesis supports a biblical worldview with empirical scientific evidence and offers defensible answers to some of the most provocative and controversial questions of faith and science. This set includes multilingual subtitles. Published: January 2015

Join Dr. Andrew Snelling as he uses the Bible to discuss and refute some of the crucial components of the "Millions of Years" theory. We must accept what God's Word and Jesus taught about the earth's age. We should not fear the radioactive methods geologists use to position rocks as millions of years old, because their methods are based on unprovable assumptions. Many examples of inherited ages, contamination, and non-constant radioactive decay rates demonstrate these assumptions are repeatedly falsified. Instead, there are many scientific evidences of a young earth, such as crumbling comets, the earth's magnetic field losing energy, and rapid salt accumulation in the oceans.

If we cannot trust the Bible about the earth's age, then we cannot trust its gospel message.

Volume 1: Our Created Solar System

Did you know that the best evolutionary models say that many of the planets in our solar system should not exist? Yet there they are.

Did God create our solar system less than 10,000 years ago, as the Bible says? Or did it form all by itself from a cloud of gas 4,600,000,000 years ago, as secular astronomers claim? Which account of history is true?

Recent discoveries in space have supported the biblical account. Each planet in our solar system defies the evolutionary model in multiple ways. Many of the planets and moons appear to be young, not billions of years old. Plus, these objects show evidence of design, not random processes.

In this video, you will tour our magnificent solar system, and explore these wonders in the heavens. Along the way, you will visit each of the planets and many of their moons, through

more than 230 breath-taking photographs and graphics from NASA and other sources. You will see how each planet uniquely testifies of its Creator.

Volume 2: Our Created Stars and Galaxies

Did you know we live in a universe of overwhelming size and beauty? It contains about 100 billion (100,000,000,000) galaxies, each of which contains about 100 billion stars. Did you know that according to the secular model, none of them should exist?

In this video, you'll see how recent discoveries contradict the naturalistic view of history. You'll hear the words of secular astronomers, as they admit that their models fail to explain the contents of the Universe.

You'll discover evidence for design in the heavenly bodies. And you'll see over 130 breathtaking photographs, videos, and graphics from NASA and other sources, revealing some of the most beautiful objects in the Universe.

The Bible tells us that God created the heavens for His own purposes. Viewing the Universe in light of Scripture gives us tremendous insight into His majesty, His character, and what He has done for us. Discover how stars and galaxies proclaim the glory of their Creator!

Volume 3: Our Created Universe

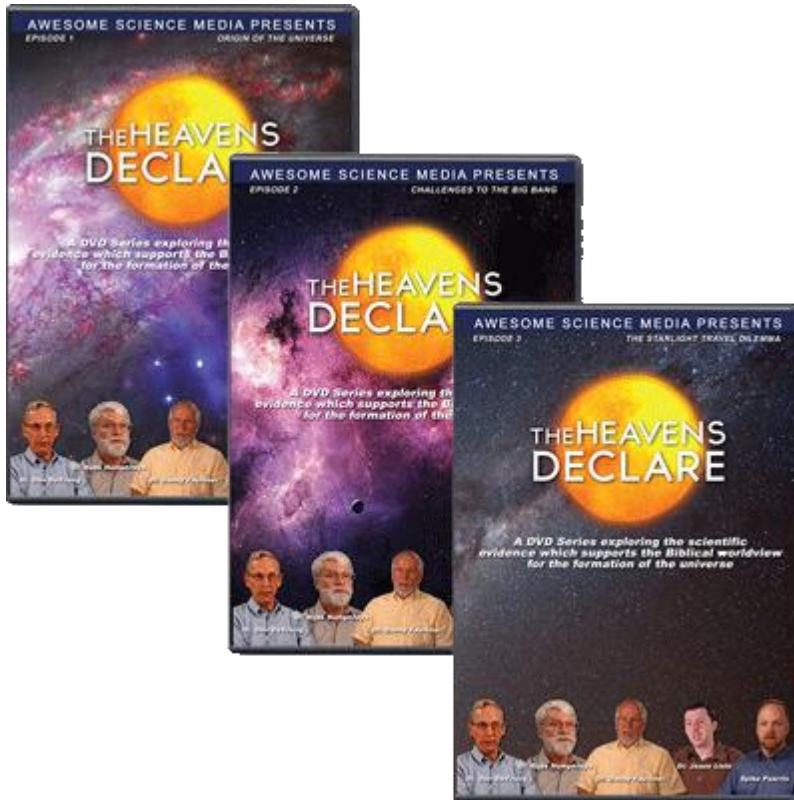

What is our universe's origin? Did it form in a Big Bang event billions of years ago? Or are the heavens consistent with the biblical account of creation instead?

The Big Bang is a popular creation myth within western culture today. Secular cosmologists claim that this idea is a valid scientific theory, well-supported by the evidence.

These claims are false. Not only is there abundant scientific evidence against the Big Bang, the model contradicts itself and has absurd implication. An objective evaluation of the evidence does not support a self-creation of the cosmos; instead, the heavens declare the glory of God. This pack includes all three volumes of the What You Aren't Being Told About Astronomy series. Both engaging and informative, these DVD's explore the nature of our solar system and beyond, and how they cannot fit within an evolutionary worldview.

Main points include:

- How do the laws of physics contradict the Big Bang?
- Challenges in antimatter and the "horizon" problem
- How the Big Bang does not adequately explain galaxy formation
- Why the biblical model works better with the evidence

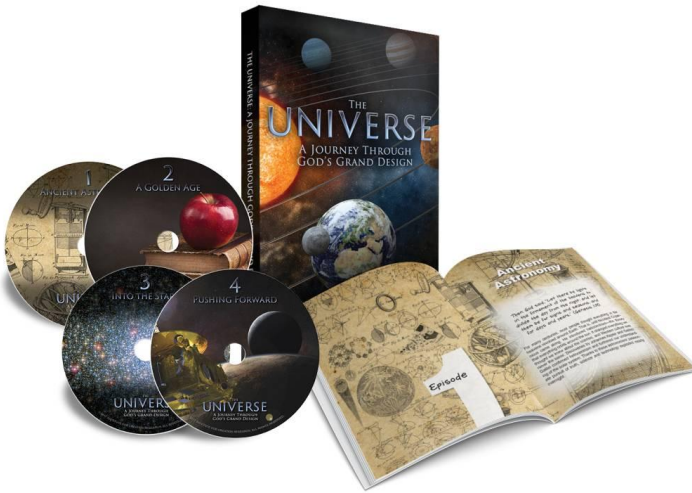

Episode 3: The Starlight Travel Dilemma

Main points of this episode include:

- Why it's important to believe in a 6,000 year creation
- How the Theory of Relativity gives hints of a young creation
- God's use of natural laws and supernatural processes in creation
- How the Bible and Christianity make science possible

Humans have always been intrigued by the celestial objects beyond our world and wondered: What are they? Where did they come from? And what do they say about where we come from?

The Universe: A Journey Through God's Grand Design takes viewers on a journey through time and space, exploring how some of the greatest discoveries in astronomy were made by scientists of faith seeking to understand the exquisite order of God's universe.

Host Markus Lloyd (*Unlocking the Mysteries of Genesis*, *Made in His Image*, and *Uncovering the Truth about Dinosaurs*) travels to world-class observatories and other locations, guiding viewers through the history of astronomy. From early theories of the solar system to Newton's laws to the space race, every century yields profound discoveries and new mysteries to explore.

Each episode takes us deeper into space and closer to today, when interplanetary probes reveal astonishing evidence that confirms and leaves us in awe of God's grace and power.

Episode 1: Ancient Astronomy

Ancients used the motions of the stars to guide them, but how and why the heavens work as they do remained a mystery. Experts reveal how early astronomers like Kepler and Galileo were driven to explore the heavens by a desire to understand the order in God's universe.

Episode 2: A Golden Age

The Age of Enlightenment ushered in a period of great advances in scientific understanding, led by men of faith like Sir Isaac Newton. This episode explores remarkable discoveries that enabled us to understand distant stars and galaxies—and our place in the universe.

Episode 3: Into the Stars

The work of 19th-century astronomers gave us a better understanding of distant stars, but 20th-century secular thinking led to some faulty and fanciful theories. The arrival of spaceflight ushered in a new era of scientific advancement that would shed light on the age of the universe and accuracy of the Bible.

Episode 4: Pushing Forward

The space race and manned missions gave us a new way to investigate the solar system beyond our own planet. Modern Christian scientists describe how astonishing discoveries from today's space explorations confirm the Bible and strengthen their faith.

So God created man in His own image; in the image of God He created him; male and female He created them." Genesis 1:27

Produced from a biblical perspective, *Made in His Image* will inspire audiences by looking at the human body in all its wonder-fully functional, fully human, and fully created in God's image. Featuring medical, engineering, and other experts like Dr. Randy Guliuzza, *Made in His Image* will fascinate audiences with mind-blowing facts, dazzling imagery, and memorable illustrations.

The four episodes will examine the stages of human development and show that everything we need to fulfill God's plan is instilled in us from the first moments of life. Each episode reinforces the knowledge that every human is special to God, and that he has endowed each of us with unique physical abilities, intellect, and spiritual lives to fulfill His purpose.

Episode 1: The Miracle of Birth

This episode shows the amazing development of a child from gestation to birth. Only a masterful creator could have designed a system that allows a child to thrive in a watery world for nine months then suddenly live in an air-breathing environment at birth.

Episode 3: Uniquely Human Hands

This episode reveals the purposeful design of human hands and muscles that gives us unique abilities controlled by a sophisticated nervous system.

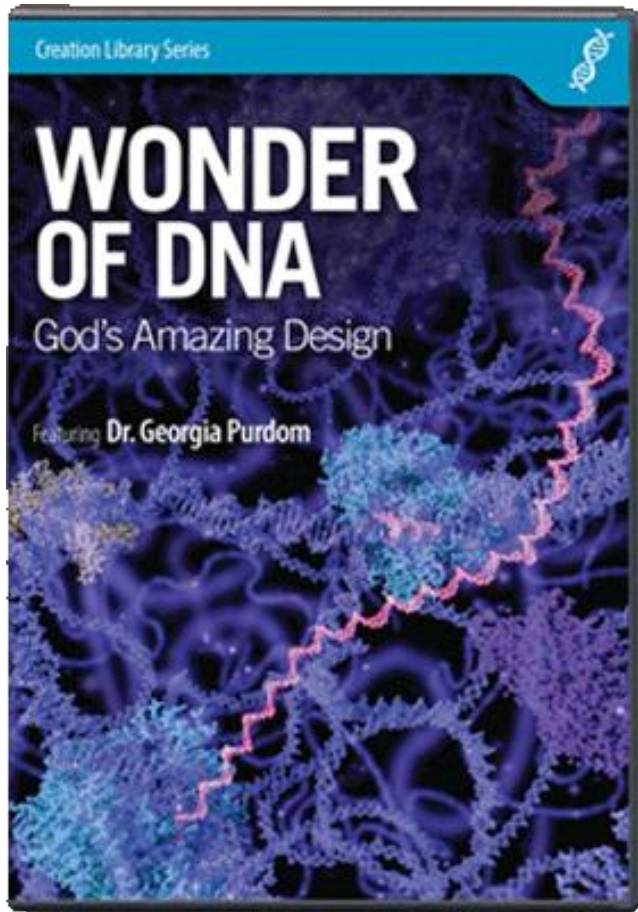

Episode 4: Beauty in Motion

This final episode illustrates the peak of human ability through athletic performance and revisits the aspects of complex design that confirm divine creation.

Christians of all ages will marvel at the complexity of God's creation as revealed in *Made in His Image*. We hope this series will prompt viewers to worship the greatest Designer of all, our Lord and Savior Jesus Christ.

Dr. Georgia Purdom reveals how DNA bears the stamp of being designed and created by God.

The amazing information system known as DNA bears the stamp of being designed and created by God. You learned about DNA in high school biology, but did you know that DNA includes hidden codes, regulatory information (that for many years was considered by evolutionists to be "junk" DNA), and epigenetic information that consists of chemical markers that affect the expression of DNA? The complexity of DNA and the many layers of information encoded by it greatly constrain the ability evolution would have to achieve the random changes necessary for molecules-to-man evolution. Clearly, DNA is not the result of evolutionary processes and disorder but the creative processes and design of the Creator God.

The observed makeup of the world's immense coal beds does not fit the millions-of-years peat swamp model. Instead it points to rapid accumulation of plant debris through catastrophic global water deposition. Experiments demonstrate it takes as little as a few days to turn buried plant debris into coal, and produce oil from coal and organic debris. The evidence thus confirms the recent, rapid formation of coal and oil as a result of the Biblical Flood!

Does an ice age fit with biblical history?

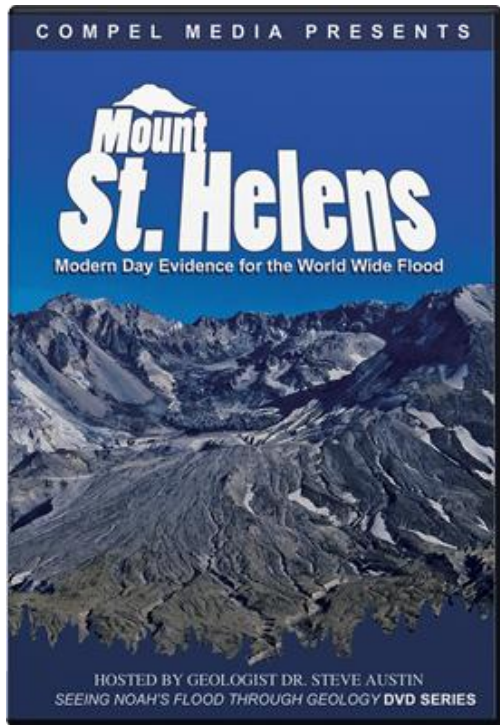

The Ice Age covered nearly a third of Earth's land surface in snow and ice. Were there many ice ages or just one? And does an ice age fit with biblical history?

Secular scientists claim that hundreds of thousands of annual layers have been identified in ice cores from Greenland and Antarctica. They also say that chemical clues in ice and ocean floor sediments tell a consistent story of climate change over millions of years. Isn't this a powerful argument for an old earth?

ICR's Dr. Jake Hebert explains how the assumption of millions of years is built into secular dating methods and how circular reasoning is used to make sure the dates match evolution's 'story.' In truth, the scientific evidence shows that while secular science fails to explain the Ice Age, the Bible provides real answers.

In 1980, Mount St. Helens erupted and forced evolutionists to admit that many long-held beliefs about geology had to change! The catastrophic explosion quickly became known as “God’s gift to creationists.” Over 30 years later, geologist Dr. Steve Austin returns to the volcano. Here he shares about the amazing processes which reshaped the terrain. New high-definition “flyover photography” and new animations, plus easy-to-understand illustrations, show that the evidence supports the biblical record of earth’s history. The formation of these features, and others noted at the Grand Canyon, Yellowstone, and elsewhere were thought to have taken millions of years. Now, they are clearly explained by quick catastrophic processes, especially the global Flood of Noah’s day.

Are you looking for "rock-solid" evidence that creation is true? In this pack, respected geologist Dr. Andrew Snelling reveals how the geologic record confirms the true history of the earth found in the Bible.

This beautifully packaged, 5-DVD set is a must for every creationist's library! Using illustrations and photographs of rock formations from around the world, geologist Dr. Andrew Snelling reveals how the geological record confirms the true history of the earth, found in the Bible.
Approximately 55-minutes per DVD

Episode 1: The Flood

The "Big Picture" of its mechanism and resulting evidences

Geologist Dr. Andrew Snelling presents several lines of evidence that both confirm the biblical account of the global Flood, and cannot be explained by evolutionary models. From deep sea fossils high atop the Himalayas to the movement of the continents during the Flood, the big picture comes into sharp focus when you look through the lens of the Bible!

Understanding the big picture of the events of the Flood year requires a look at the geologic record left from this earth-shaping event. Dr. Snelling guides you through several fascinating

lines of evidence that confirm the Bible's account. The presence of marine fossils atop the highest mountains and rock layers extending across entire continents can only be explained as a result of the biblical Flood. Massive earthquakes, volcanoes, and tsunamis far more devastating than any seen today accompanied the Flood and the redistribution of earth's continents. This intriguing presentation will help you make sense of all that accompanied this globally significant event.

Episode 2: Noah's Flood and the Earth's Age

This presentation reveals the failed attempts of evolutionists to account for their proposed millions of years of earth history, and points to the true biblical age of our planet.

As the Apostle Peter warned, there are those who scoff at the biblical account of the Flood and the young age of the earth. Focusing the accuracy of the scriptural account of earth history and the bankruptcy of evolutionary storytelling, geologist Dr. Andrew Snelling presents a truly biblical understanding of the age of the earth. The foundation of the gospel rests on the Bible's clear account of history—beginning in Genesis. Without the foundation of billions of years of supposed geologic history, the evolutionary worldview crumbles. It is crucial that Scripture—rather than the fallible opinions of men—be used as our authority in all areas.

Episode 3: Radioactive and Radiocarbon Dating

Few people who think that radiometric dating proves the earth is billions of years old really understand the underlying assumptions. Using simple illustrations, geologist Dr. Andrew Snelling examines these assumptions and equips viewers with information to counter their anti-biblical arguments.

Though this topic can seem intimidating, Dr. Snelling boils it down to laymans level and walks the viewer through a basic understanding of the process used to date rocks and fossils. Using simple illustrations, the assumptions used to arrive at dates are exposed as faulty—and the evolutionary timescale along with them. Then, through several lines of evidence, including carbon-14 found in diamonds and fossils, the inconsistent nature of radiometric ages is revealed. Find out how creationists can turn this apparent foe into a friend by starting with Scripture as the ultimate authority!

Episode 4: Radiohalos

Radiohalos have been described as a “very tiny mystery” hidden in the crystals that make up rocks. Geologist Dr. Andrew Snelling explains how these tiny mysteries help to unlock a biblical understanding of radiometric dating and the age of the earth.

By connecting radiohalos to radiometric dating, a period of accelerated nuclear decay can be explained at the time of the Flood. Rejecting evolutionary assumptions and relying on the Bible as the starting point allows us to understand the true history recorded in the rocks. (63 minutes)

Episode 5: Grand Canyon

Grand Canyon offers some of the most breathtaking vistas in the world, but did the tiny Colorado River really carve this massive feature? Evolutionary thinking about Grand Canyon requires the passage of millions of years. Dr. Andrew Snelling uses diagrams, beautiful photographs of the canyon, and first-hand knowledge to dismantle this story. Then, using the biblical Flood as his starting point, Dr. Snelling shows how Grand Canyon bears testimony to rapid erosion as a result of the waters left behind by the global Flood.

Fueled as much by popular culture as by science, dinosaurs capture the imagination. Footprints and fossilized bones prove they once existed, but many questions linger about what they were, where they came from, and how they lived and died. From the Institute for Creation Research, *Uncovering the Truth about Dinosaurs* takes on the challenge of unraveling these mysteries and unearthing the real truth.

Host Markus Lloyd (*Unlocking the Mysteries of Genesis* and *Made in His Image*) journeys to various locations to investigate some of the common theories about dinosaurs, while experts in subjects like paleontology, geology, archaeology, and history examine evidence that casts doubt on secular theories about geologic time and evolution.

Uncovering the Truth about Dinosaurs offers compelling evidence about these mysterious creatures that confirms the biblical account of Genesis. Witness the awesome work of the Creator and see how the Bible gets it right in all matters -- including dinosaurs.

Episode 1: Digging into Dinosaurs

Interviews with experts reveal intriguing information about favorite dinosaurs like *T. rex* and *Triceratops*, while host Markus Lloyd explores a fossil dig where paleontologists work to unravel the mysteries hidden in dinosaur bones.

Episode 2: Dinosaurs and Dragons

From legends and folklore to archaeology, eyewitness accounts, and the Bible itself, experts describe compelling evidence from around the world that suggests dragons were dinosaurs that lived in the not-so-distant past.

Episode 3: Dinosaurs and the Flood

Modern paleontologists are piecing together a fascinating chronicle of the lives and catastrophic end of the dinosaurs. Fossil and geological records divulge evidence that matches the biblical description of one truly unparalleled cataclysmic event -- the Genesis Flood.

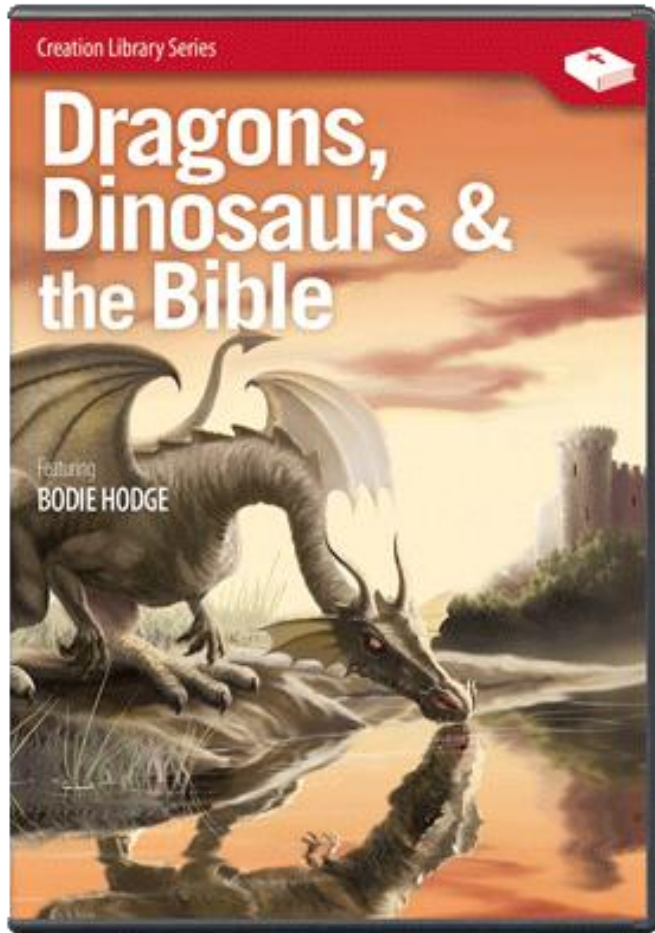

Episode 4: The Hard Truth

Thanks to technological advances, more ground-breaking discoveries are coming to light every year, validating the argument that dinosaurs were created and lived at the same time as humans just thousands of years ago.

Did dinosaurs roam the earth 65 million years ago or was it much more recent than that? In Echoes Of The Jurassic: Discoveries of Soft Tissue, new discoveries have shown the evidence for creation and confirmed the biblical accuracy of Genesis. Hosted by David Rives.

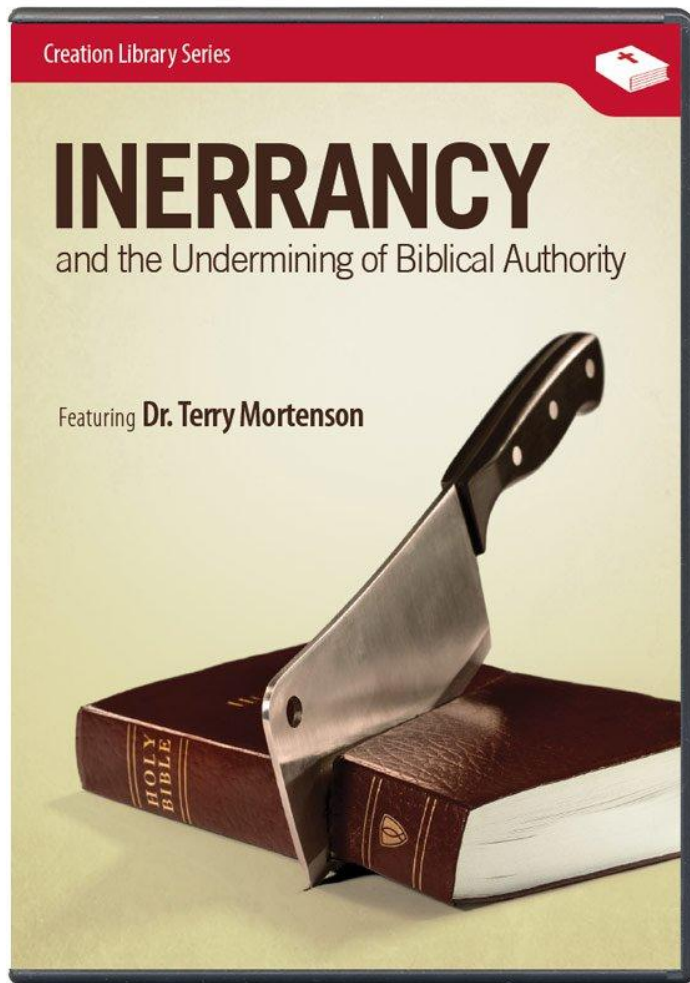

It is true! In 2005, Dr. Mary Schweitzer and her research team reported one of the greatest paleontological discoveries in history. The scientific community was stunned, and many argued that it is not possible for there to still be soft and pliable tissue remaining in dinosaur bones. They claimed that it was contamination or bacterial biofilm mimicking soft tissue. However, during the past decade discoveries have continued, and the evidence clearly demonstrates that this is original dinosaur tissue.

In 2012, the Creation Research Society began work on its iDINO project. It was created with the specific purpose of conducting dinosaur tissue research from a biblical creation perspective. As part of this project, tissue and intact bone cells were discovered in a Triceratops horn.

See the evidence for yourself, and understand why this is such a challenge to the evolutionary dogma.

Is the Bible without error? Can someone believe in an inerrant Bible and believe the earth is millions of years old? Does this issue really matter?

Most evangelicals today say the Bible is without error in matters of theology and morality, but they doubt or deny that the earth is only about 6,000 years old, as Scripture seems to indicate. They insist that the age of the earth is an unimportant side-issue that is a matter of interpretation of Scripture, not inerrancy. Can someone believe in an inerrant Bible and believe the earth is millions of years old? Consider Dr. Mortenson's thoughts on these important questions. Discover why this issue really does matter!

What questions would you ask Noah?

This is a fun look at the scoffing and questions that Noah surely faced. While finishing his preparations on the Ark, Noah is visited by a “local news team” interested in writing a story about his unusual building project. Answering each snickering question, he continually refers back to God’s command to build the Ark. In the midst of their scoffing, Noah shares that repentance of sins is the only way to be saved from the floodwaters. Why another book on the Flood and the Ark?

There are hosts of books and resources on the Flood and Noah's ark in the creation movement. Yet, there has been a glaring problem in this area for 50 years. There isn't one basic laymen book on the Flood and Noah's Ark to give answers to those questions asked all the time. Most books are too shallow, too specific, or too technical for the average Christian to read or get much from.

- Addresses issues in a way that should be easy to read and yet still gives the reader some meat to chew on.
- The perfect “starter” book for those interested in learning more or for believers wanting to share the truth with non-believers.

Most people in the pews could use a book like this to give them the basic answers they need about the Flood and Noah’s Ark. After reading it, they will be prepared to go into further technical or specific books from there.

This book will also point you to the Lord Jesus Christ of which the Flood (the first part of the book) and Noah’s Ark (the second part of the book) is a picture. The Flood was a judgment on sin and the ark was a means of salvation from that catastrophe. All you had to do was enter the door of the ark to be saved. The Young Explorers dig deeper into the next phase of the Exodus story – the tremendous multiplication of the Israelite population and their descent into slavery. Could what they see be evidence of the Israelites?

The Case of Israelite Slaves and the Wicked Pharaoh – Episode 3: The Young Explorers dig deeper into the next phase of the Exodus story – the tremendous multiplication of the Israelite population and their descent into slavery. They rise high above the plains of Egypt in a hot air balloon to see the amazing growth of Avaris and the discovery of baby Moses in a basket. The Explorers also examine an Egyptian document listing Hebrew slaves. Could all of this be evidence of the Israelites?

Chapter 1, pp. 4–5

Oh, the depth of the riches both of the wisdom and knowledge of God! How unsearchable are His judgments and His ways past finding out! (**ROMANS 11:33**)

COULD GOD FORGIVE US WITHOUT CHRIST SUFFERING?

Chapter 2, pp. 6–7

The punishment for sin is serious—eternal death and separation from God forever—unless we could offer a perfect sacrifice to God to pay for our sin.

WILL GOD KEEP ME SAFE FROM SATAN?

Chapter 3, pp. 8–9

It does seem like Satan and his angels might be able to do us harm, doesn't it?

IS A SOLDIER KILLING IN WAR WRONG?

Chapter 4, pp. 10–11

It is sad but true that as long as there is sin in the world, there will always be war.

WILL OUR PERSONALITIES BE CHANGED IN HEAVEN?

Chapter 5, pp. 12–13

We will be ourselves without sin!

WHY DOES GOD LET THE BAD GUYS WIN SOMETIMES?

Chapter 6, pp. 14–15

We can't see all that God sees. God knows exactly how everything will turn out.

WHY ISN'T SATAN THE FIRST SINNER?

Chapter 7, pp. 16–17

The way God deals with humans is different from the way He deals with the angels.

WHERE DID SATAN'S SIN COME FROM?

Chapter 8, pp. 18–19

God tells us in His Word that angels are created beings; they can never be like God.

WHY DO ANIMALS DIE?

Chapter 9, pp. 20–21

When our dog died, I was sad! But it reminded me how terrible sin is, and because of sin, everything and everyone must die.

IF I AM GOD'S CHILD WHY DOESN'T HE KEEP ME FROM GETTING SICK?

Chapter 10, pp. 22–23

"And God will wipe away every tear from their eyes; there shall be no more death, nor sorrow, nor crying. There shall be no more pain, for the former things have passed away" (**REVELATION 21:4**)

DID GOD CREATE THE TSUNAMI?

Chapter 11, pp. 24–25

God does control everything that happens on earth and in the universe. He is the Creator of all.

WHY DID CAIN KILL ABEL?

Chapter 12, pp. 26–27

If we look at the Bible account of Cain and Abel, we see that they both offered sacrifices. But even though they both offered something to God, their hearts were different.

WHAT HAPPENED TO PEOPLE WHO DIED BEFORE JESUS CAME?

Chapter 13, pp. 28–29

You see, since the Fall, when sin entered the world, everyone on earth has opportunity for salvation through faith, (either in Jesus who was to come or Jesus who has now come).

DID ADAM AND EVE GO TO HEAVEN?

Chapter 14, pp. 30–31

The Bible doesn't say for sure if Adam and Eve went to heaven or believed God's promise of the coming Savior. I think that the Bible shows that it is a good possibility.

... their gravity is so strong that light can't even escape from them. If light cannot escape a black hole, then it can never get to your eyes, so it appears black.

IS JUPITER STORMY?

Chapter 7, pp. 16–17

The stripes that appear on the planet are actually generated by strong winds. Because of its gas composition and strong winds, it's prone to massive storms.

HOW FAR AWAY IS THE NEXT GALAXY?

Chapter 9, pp. 20–21

The nearest galaxy depends on how we define a galaxy. There are masses of stars much smaller than the Milky Way that are considered a galaxy.

DID CHRISTIANS BELIEVE THE EARTH IS FLAT?

Chapter 11, pp. 24–25

Most ancients believed in a round earth, including Christians.

HOW HOT ARE THE SUN AND OTHER STARS?

Chapter 13, pp. 28–29

The sun is not too hot or too cold when compared to other stars.

IS IT POSSIBLE THAT THERE ARE LIVING THINGS IN SPACE?

Chapter 6, pp. 14–15

The Bible seems to rule out any native intelligent life in outer space since they would be under the Curse with no possibility of salvation (Romans 8).

WHAT ARE COMETS AND WHAT ARE THEY MADE OF?

Chapter 8, pp. 18–19

Comets are icy objects in space that release dust or gas when they approach the sun.

HOW MANY PLANETS ARE THERE AND COULD THEY HIT EACH OTHER?

Chapter 10, pp. 22–23

The definition of a planet was recently changed. Because of this change, the previous count of nine planets was changed to eight.

DO METEORS BURN UP AND ARE THEY DANGEROUS?

22 Questions from Kids on Evolution and "Millions of Years"

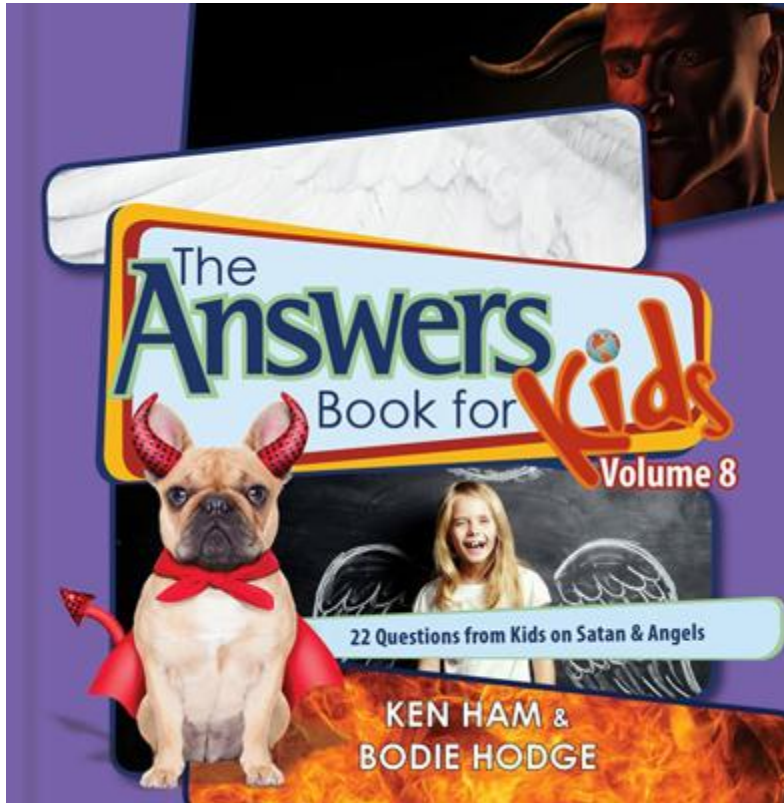

Answers are important. Be ready for the questions children ask the most. If kids aren't given answers to their questions about the Bible and the history it reveals, they will not embrace and cannot defend the truth of God's Word in our fallen world.

Today it seems that the teaching of evolution is everywhere, even finding its way into the church. This book answers 22 actual questions from kids on evolution and the idea of "millions of years," helping create a powerful foundation of faith. Kids will discover:

- Who started the idea of evolution?
- How old is the earth and the universe?
- Were the continents ever connected?
- How did people get the idea that we evolved from fish, frogs, and "apemen"?

Packed with biblical answers to over 25 of the most important questions on creation/evolution and the Bible, *The New Answers Book* is a must-read for everyone who desires to better understand the world in which they live.

The New Answers Book is packed with biblical answers to over 25 of the most important questions on creation/evolution and the Bible. Richly illustrated with photos, charts, and graphs, this book is a must-read for everyone who desires to better understand the world in which they live. Perhaps the most helpful benefit is that each chapter is “stand alone” and can be read in any order.

The New Answers Book covers such foundational questions as: What about the gap theory? Where did Cain get his wife? and Is there really a God? It also covers topics like natural selection, death and suffering, plate tectonics, the big bang, the laws of nature, UFOs and extraterrestrials, the alleged dinosaur-to-bird connection, distant starlight, and more. *The New Answers Book* even has a section on radiometric dating, including the results of the recent

R.A.T.E. (Radioisotopes and the Age of The Earth) project, sponsored by the Institute for Creation Research and the Creation Research Society.

Featuring 15 authors such as Ken Ham (who also served as general editor), Dr. David Menton, Dr. Georgia Purdom, Dr. Tommy Mitchell, Dr. Jason Lisle, Dr. Terry Mortenson, Dr. Monty White, and Paul Taylor, *The New Answers Book* is sure to be a best seller and a standard reference for years to come. (Supplemental study guide also available.)

The history of *The Answers Book*

Since it was originally compiled more than 20 years ago, and later expanded in three major updates, *The Answers Book* has been a top-seller among modern apologetic works.

It was a book born out of need. “As I traveled and spoke,” says Ken Ham, “I was constantly asked the same important questions everywhere I went. Christians needed a book with concise answers.” Working with associates at the ministry he co-founded in Australia, Ken created a book that answered the top questions about creation/evolution—written in a style laymen could easily understand. The last revised and expanded book was produced in the late 1990s. Since then, several of the questions that were asked at that time have lost their popularity, and new evolutionary claims demand responses to more urgent topics. As a result, numerous experts were again commissioned to create an entirely new book with answers to more questions than ever.

The New Answers Book is an excellent addition to any library and beneficial reading for everyone who desires to defend their faith. This book will surely become the standard among creation literature, carrying on the legacy of Ken Ham’s original vision for *The Answers Book*.

One thing is certain—skeptics don’t always ask the same questions, and in today’s skeptical culture, common questions are on the rise. Picking up where volume 1 left off, this second volume contains answers to more than 30 questions on creation/evolution and the Bible that can be read in any order.

Because we want Christians to witness effectively, we put together *The New Answers Book 2*. It picks up where *The New Answers Book 1* left off. This new volume combines chapters from the book *War of the Worldviews*, and nearly 20 more of today’s most oft-repeated questions. Volume 2 is an excellent complement to the first book, answering over 30 questions in total.

The New Answers Book 2 is designed to give lay Christians answers to false worldviews such as evolution and millions of years that pervade today’s culture! Like *The New Answers Book 1*, each chapter in volume 2 is a “stand alone” allowing them to be read in any order. *The New Answers Book 2* (as well as volume 1) is a must-have addition to any library and essential to have answers to this skeptical age!

According to the statistics, a huge disconnect is taking place between our children and their church experience. Recorded live, popular speaker Ken Ham reveals the trends and calls the church to action!

The trends are frightening, but this video shows how to win back our families, our churches, and our world!

The next generation is already calling it quits on traditional church. Next Sunday, look around, two thirds of the young people in your church are already disengaged from the message they are hearing. And it's not just happening on the nominal fringe; it's happening in the most solid "Bible-believing" churches.

In this important video, Ken Ham discusses the profound cultural changes taking place in our Western world, as God's Word is rejected and man's fallible ideas are welcomed. Ken relates some of the shocking statistics presented in the book *Already Gone* that reveal the reasons why young people are leaving church and abandoning the faith of their parents.

The church is failing to give children real answers to their questions. We are losing our kids long before college. But this is far from a hopeless situation. Ken explains how we can fight back for our children, and what we can do to ground our children in the faith and prepare them for the challenges of the secular world.

Statistics reveal a huge disconnect taking place between our children and their church experience

Nationwide polls and denominational reports are showing that the next generation is calling it quits on the traditional church. And it's not just happening on the nominal fringe; it's happening at the core of the faith.

In the first scientific study of its kind, the "Beemer Report" reveals startling facts discovered through 20,000 phone calls and detailed surveys of a thousand 20–29 year olds who used to attend evangelical churches on a regular basis, but have since left it behind.

The results are shocking:

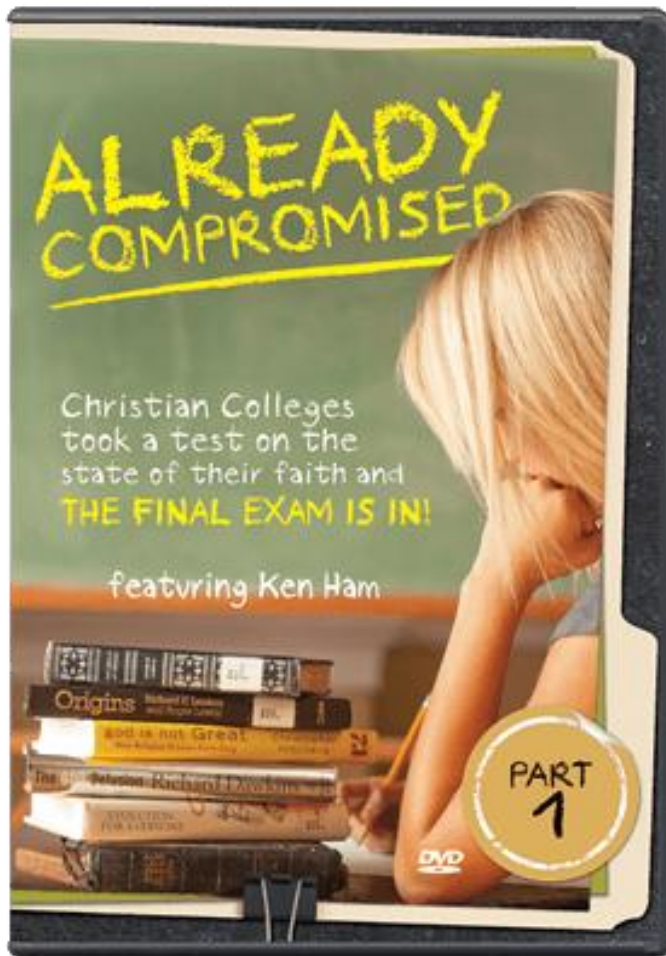

- Those who faithfully attend Sunday School are more likely to leave the church than those who do not.
- Those who regularly attend Sunday School are more likely to believe that the Bible is less true.
- Those who regularly attend Sunday School are actually more likely to defend that abortion and gay marriage should be legal.
- Those who regularly attend Sunday School are actually more likely to defend premarital sex.

In this powerful book, popular author Ken Ham and consumer behavior research/analyst C. Britt Beemer combine to reveal trends that must be dealt with now . . . before we lose another generation!

The trends are frightening, but *Already Gone* shows how to win back our families, our churches, and our world!

The Church is in danger of losing future generations, but only if we fail to understand the problem and don't engage them with the truth! Find out how to reach these generations with this powerful conclusion to the best-selling *Already Gone* and *Already Compromised* series.

Calling Christians to Stand Firm on the Word of God in a Shifting Culture

Having grown up in church, an alarming percentage of people have now traded in the timeless beliefs of Scripture for a more comfortable, postmodern faith and secular worldview. They have waded so deep into the culture that the current has swept them into the pluralism of biblical compromise and materialistic indoctrination. *Ready to Return* explores:

- Why this is happening, and more importantly, what can be done about it to help bring back a lost generation
- Critical NEW research that clearly reveals shocking details about views on the Church and faith by people in their 20s (known as millennials)
- Conclusive evidence that we dare not ignore, showing a lack of effective biblical apologetics in homes and churches, compromise with secular beliefs, secular education, and failures on the part of previous generations. All are contributing greatly to this faith-shattering dilemma.

Within the pages of this new book is much more than just a clinical diagnosis of the Church's current condition and how we got here. It's a simple and powerful call to return to the Church's fundamental mission to reach the world, with practical ideas as to what must be done, beginning with disillusioned young adults who-for the moment-are still attending church!

If we are to bring back this lost generation, we need a proven strategy and willingness to present truth, a biblical battle plan, and praying soldiers.

Archaeology helps us discover evidences that confirm the biblical account. This richly illustrated book provides a reliable summary of some of the biggest archaeological finds ever!

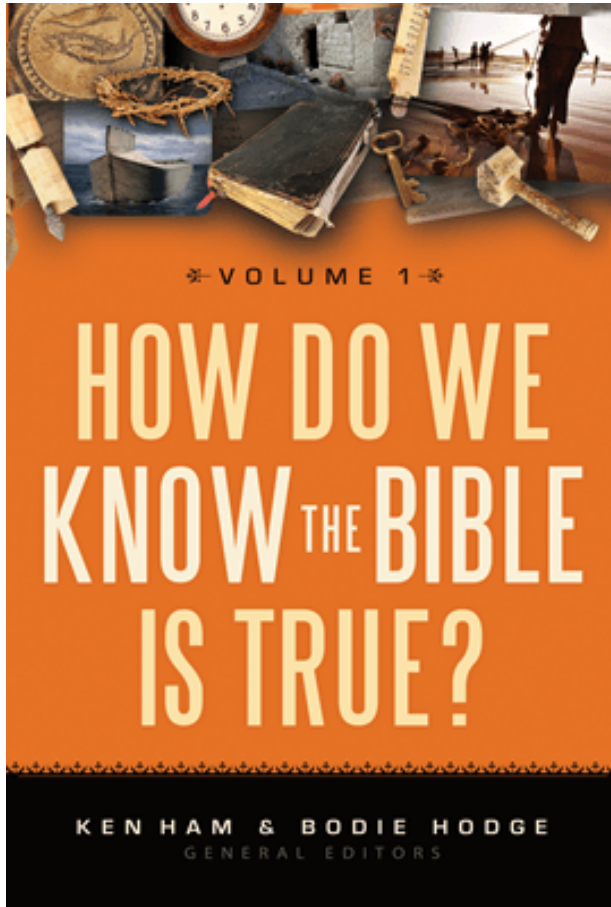

Archaeology throws dramatic light on the biblical record

A burned and broken wall embedded with arrows and sling stones tells of a city taken by storm. A scribbled message on a piece of pottery reveals the urgency of the hour. Palace inscriptions and clay tablets in a royal archive reflect a well-organized central government. Inscribed silverware, jewelry, and household items illustrate the domestic life of the inhabitants.

The evidence will surprise and inform you as you turn over the soil of history from the pages of your Bible. The witness of the trowel authenticates and illuminates the people and events, lifting them from the pages of the Book and setting them in the context of time and place. Join us on an exciting journey with this evidence from the past.]

Can you defend the authority of the Bible?

Government and media leaders have been eliminating the Bible and its teachings from society for years. Now there are Christian professors, pastors, and other church leaders who cast doubt on the reality of Adam, the age of the earth, and the inerrancy of the Bible. This cultural disregard for the Word of God demands that we focus on educating ourselves and defending the truth.

General editors Ken Ham and Bodie Hodge of Answers in Genesis along with a team of biblical scholars and Christian apologists present answers to twenty relevant debates. This all-star lineup of authors include Jason Lisle, Brian Edwards, Tommy Mitchell, Steve Ham, Jobe Martin, Steve Fazekas, Terry Mortenson, Tim Chaffey, Roger Patterson, Bob McCabe, Georgia Purdom, and John MacArthur. Guard your family, your church, and future generations from vague notions of truth and authority. Be prepared to give a reason for your faith in God!

In the growing “biblical authority” debate—which often encompasses the creation-evolution controversy—we usually get a host of questions about science and the Bible. But as soon as we answer those questions (for example in our popular New Answers Book series), skeptics realize their defeat and quickly change their line of attack and go after the Bible itself or the character of God.

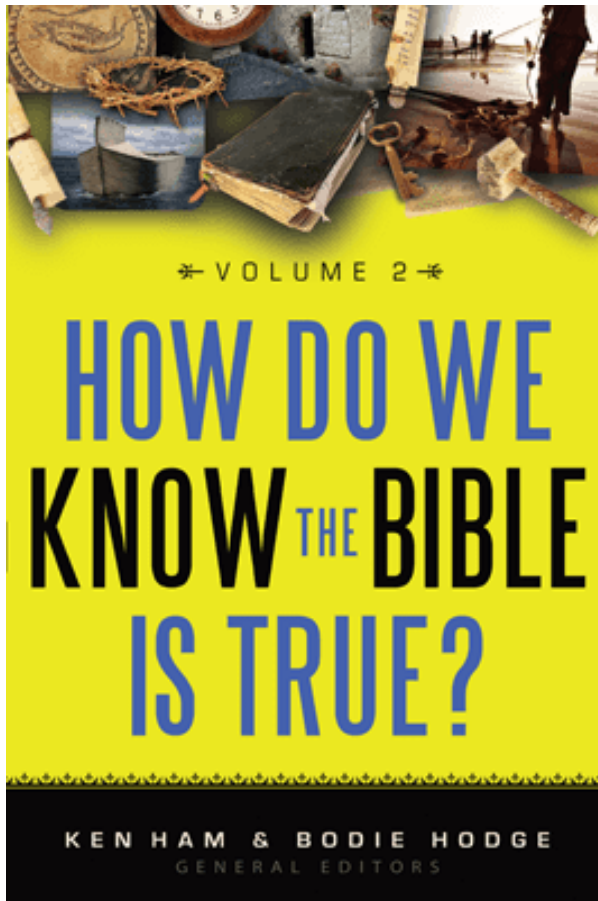

Over 20 relevant issues discussed include:

- Is the Bible totally without error?
- Did the resurrection really happen?
- How do we know that the 66 books of the Bible are from God?
- Does the Bible contradict itself?
- How were people saved before Jesus came?
- What is the purpose and meaning of life?
- Did miracles really happen?
- Was Genesis derived from ancient myths?
- How should we interpret the Bible; should Genesis be literal?
- Do you have to believe in a young earth to be saved?
- What about the factual claims in *The Da Vinci Code*?
- Is the age of the earth a salvation issue?

This first book of a new series, simply entitled *How Do We Know the Bible Is True?* is lay-friendly, yet hard hitting where it needs to be. This is an excellent new tool when it comes to defending against the shifting attacks on God’s Holy Word.

We are an increasingly skeptical society—whether it comes to politics, science, or even faith. People see conflict everywhere, even about fundamental aspects of the Bible. When church leaders are at odds about biblical truth and scriptural authority, believers are left confused and uncertain, needing clear biblical truth.

Addressing topics from popular culture like the Shroud of Turin, or "missing" books of the Bible, and even what makes God's Word unique among holy books, *How Do We Know the Bible Is True?* Vol. 2 is a "must have" resource for churches, libraries, and home study.

Charles Darwin's *On the Origin of Species* is considered one of history's most influential books and has become the foundation of evolutionary biology. But what if Darwin was looking at the same evidence today using modern science; would his conclusions be the same?

The scientific revolution to overturn Darwin may have begun

In 1859, Charles Darwin wrote *On the Origin of Species by Means of Natural Selection*, which upended centuries of scientific perspectives. Even now, people believe Darwin's access to the limited scientific knowledge of the time and his flawed ideas somehow explain the world around us. Simply put, they don't. But *Replacing Darwin* does.

- Easy-to-comprehend with a jargon-free style and many detailed informational images, illustrations, and charts
- Features the latest creationist research
- Comprehensively rebuts and replaces the evolutionary model for the origin of species

Science has come a long way since Darwin made his claims in the 1800s. Several remarkable scientific discoveries have been made that shed new light on the earth's origins. In addition, much of the evidence Darwin presented for his argument no longer seems like clear evidence for evolution. Dr. Nathaniel Jeanson effectively and authoritatively documents the newest discoveries, refutes Darwin's claims, and presents a compelling alternate explanation for the origin of species.

Testimonials

“ Scientific knowledge often only grows when popular opinions are tested, favorite theories closely scrutinized, and comfortable concepts are challenged. In *Replacing Darwin* Dr. Jeanson asks you to do exactly this: question what you think you know....I think even Darwin would have been fascinated by Dr. Jeanson's insights. ”

—Kevin Anderson, PhD, Microbiology

“ Replacing Darwin is a bold title for a rather audacious work....This is a thought-provoking book that presents challenges to the model of random chance origins to those intellectually honest enough to wrestle with this topic. ”

—Rick Roberts, PhD, Biology Program Director, Grace College

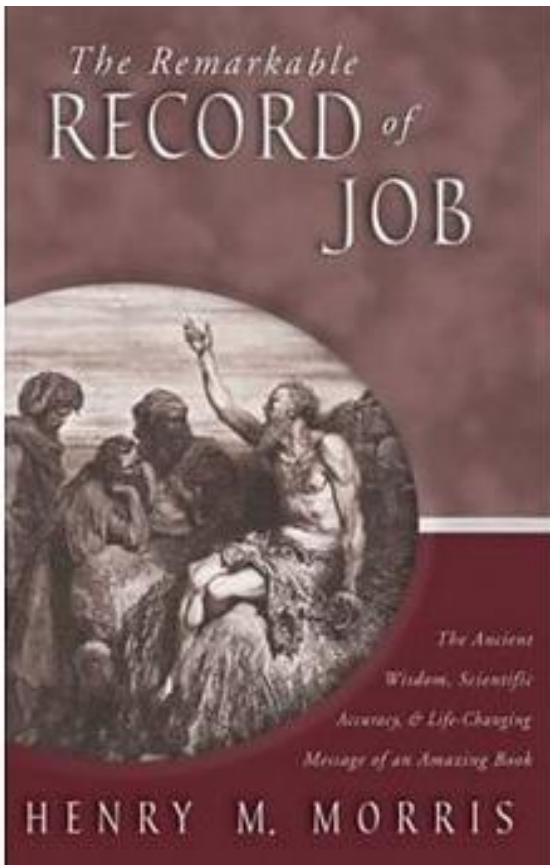

“ The arguments made in this book are unique and fresh....I only have high recommendations for this book. ”

Title:	The Remarkable Record of Job
Author:	Dr. Henry M. Morris
Publisher:	New Leaf Publishing
Publication Date:	1988
Audience:	General

Far from being an engaging fable, the account of Job in the Bible is one of the most historically and scientifically accurate records of the ancient world. Perhaps the oldest book in the Bible, the Book of Job touches on many subjects of science and history: an ice age and hydrologic processes in the oceans, to accounts of cave-dwelling people.

This commentary on the controversial Book of Job is very different from most of the seminary and Church teachings so prevalent today, for it attests to the historicity of a man named Job who understood at the end of his life that God cannot be "figured out," but He can most certainly be trusted.

[Assembling the Pre-Flood World](#)

Knowledge of the pre-Flood world is limited because the Bible only gives a few details. Some creationists have relied heavily on secular interpretations in their studies on continental configurations and pre-Flood geography. ICR's geological research is the first to tackle this issue using actual rock data from around the globe.

CAP 101: Foundations in Creation Apologetics

FRLC Library Creation Science & Apologetics

Materials Information

This 15-lesson online course will give you a firm foundation in the fundamental ideas of creation apologetics and help you understand the battle between the authority of Scripture and the authority of man in modern culture.

The course will arm you with knowledge and resources to help you engage the culture with the truth of Scripture, and will review the scriptural foundation that refutes those who compromise Scripture by espousing ideas like progressive creation and theistic evolution.

In addition, you will study important concepts in biology and geology to become better able to provide answers “to everyone who asks you a reason for the hope that is in you.” (1 Peter 3:15)

Choose the Course Option That’s Right for You

ACSI teachers who pass the course can receive 4 ACSI-accredited Continuing Education Units (CEUs). (Please allow up to 5 business days to process your registration. You will receive an email with instructions for enrolling in the course.)

CAP 101 Overview

Topics

- The relevance of creation to the gospel
- The incompatibility of evolution and the Bible
- Biblical and scientific support for a recent, six-day creation
- How to use logic to defend your faith
- The nature of Noah’s Flood
- Compromise in Christian doctrine
- Implications of death before sin
- The relationship between Genesis and the rest of the Bible
- The 7 C’s of biblical history
- Basic radiometric dating concepts

FRLC Library Creation Science & Apologetics Materials Information

- Understanding mutations and evolution

Activities

- Discussion forums where instructors and students can ask questions
- Online quizzes with immediate feedback
- Online videos with integrated study guides
- Live chats with the instructors
- Independent projects that apply what you have learned
- Reading assignments that will engage and equip you

Goals and Outcomes

Upon completing the course, students will be able to:

- State reasons for a literal interpretation of the Genesis account of Creation.
- State why an evolutionary worldview is inconsistent with the teachings of the Bible.
- State how a global Flood is presented in the Bible.
- Use principles of logic to expose and avoid invalid arguments.
- State the importance of sin preceding death.
- Explain inconsistencies in compromise theories such as the gap theory, progressive creationism, and theistic evolution.
- Use other passages from the Bible to confirm the Genesis account of Creation and Genesis as literal history.
- Use biblical truths and scientific examples to refute evolutionary claims.
- Answer questions from skeptics on biblical authority and scientific validity of biblical creation.
- Defend the authority of the Bible.
- Be ready to give a defense for the hope of eternal life found in Jesus Christ alone.
- Share the gospel with confidence.

Expectations

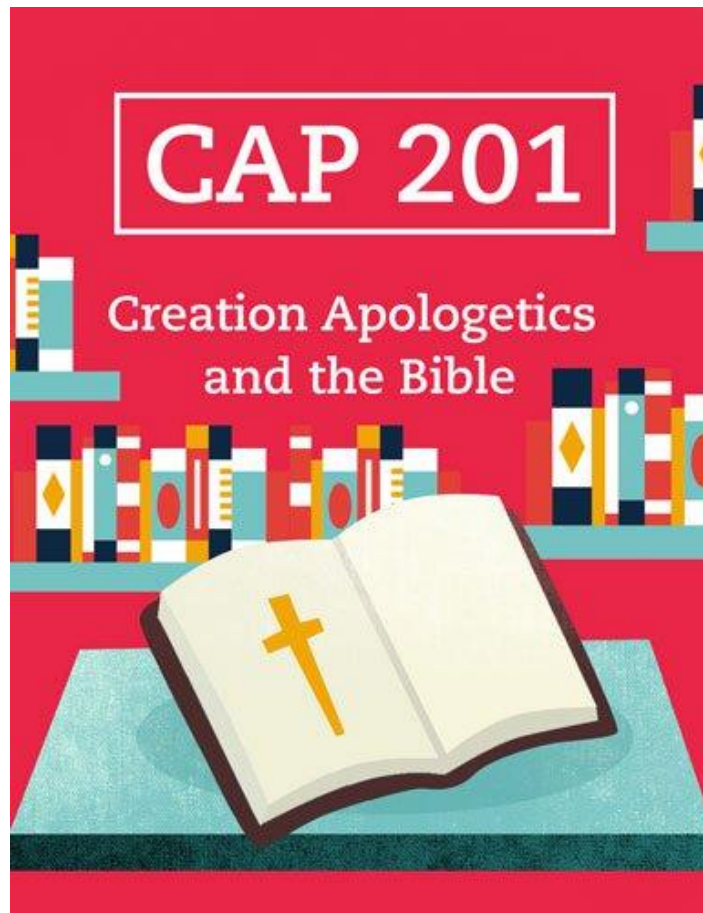

- A digital certificate of completion will be awarded to those finishing the course with a final score of 75% or higher.
- In addition, ACSI teachers who pass the course can receive 4 ACSI-accredited Continuing Education Units (CEUs). (A \$20 fee will be assessed for CEU processing.)
- Students should expect to spend 4–6 hours per lesson watching the videos, reading the articles, asking questions in the forums, and taking the quiz. Complete the coursework at your own pace within six months.

- Parents or teachers seeking to use this course for high school credit can consider this the equivalent of one semester of social studies credit.

CAP 201: Creation Apologetics and the Bible (Coming Soon)

FRLC Library Creation Science & Apologetics

Materials Information

Strengthen your walk and deepen your understanding of the integrity and authority of Scripture. No other document in history makes the bold claims the Bible does, and no other document has the integrity of the Bible. This 7-lesson course will teach you how to defend the Bible's integrity with a deeper understanding of its authority.

This course builds on the ideas presented in the Foundations course (we recommend CAP 101 Foundations in Creation Apologetics be completed before any advanced course). The principles of presuppositional apologetics will be used to dive deeper into each topic in this course. Students will be involved in reading articles, researching issues related to biblical authority, watching videos, and completing quizzes that uphold the Bible as the ultimate source of truth.

Topics

- Alleged biblical contradictions
- Biblical integrity and manuscript proofs
- Hebrew writing styles
- Biblical archaeology
- Biblical genealogies
- Biblical compromise positions
- Consequences of the Flood and Babel

Activities

- Online videos featuring expert instructors
- Reading assignments that will engage and equip you
- Discussion forums where instructors and students can interact
- Online quizzes with immediate feedback

Goals

Upon completing the course, students will be able to:

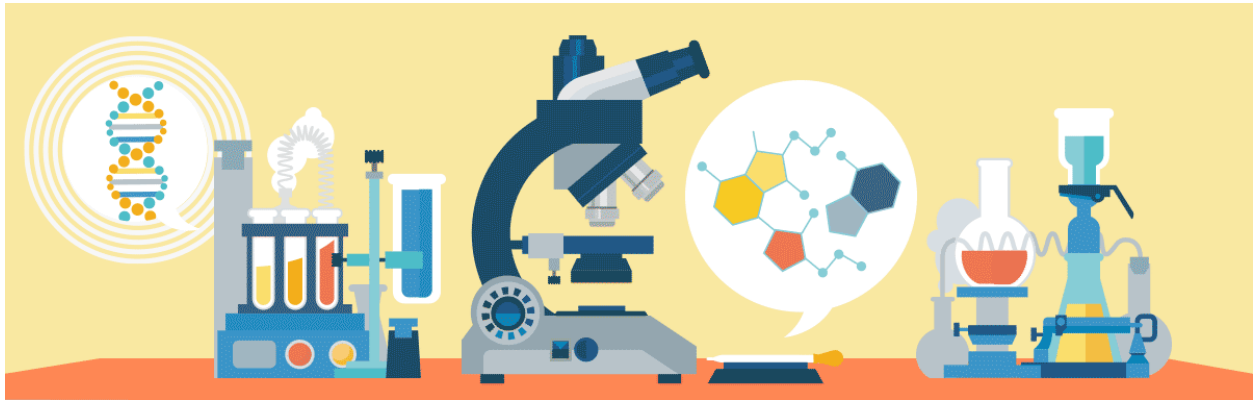

- Debunk claims that the Bible contradicts itself in many places.
- Explain the authority of the Bible based on its internal consistency and manuscript integrity.
- Describe how different writing styles are used in different sections of the Old Testament.
- Describe archaeological finds that confirm the Bible's accounts.
- Use biblical genealogies to defend a 6,000 year age for the earth.
- Refute compromise positions such as intelligent design and progressive creationism based on biblical authority.
- Communicate the consequences of the Flood and the Babel account as described in Genesis 1–11.

FRLC Library Creation Science & Apologetics Materials Information

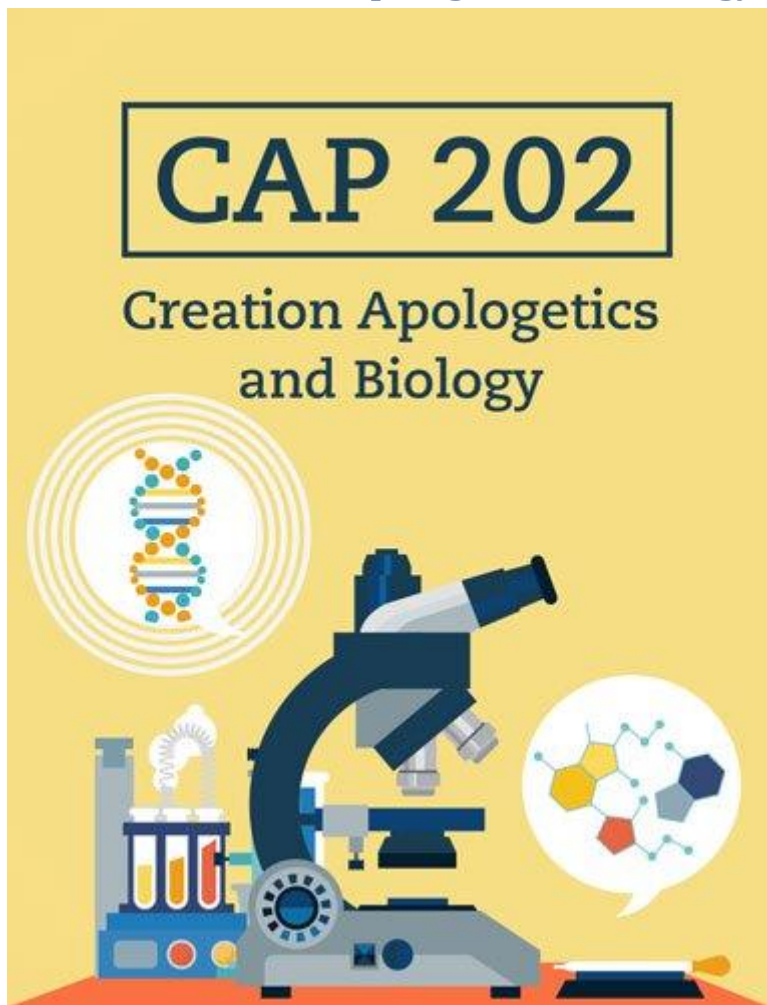

Expectations

- A digital certificate of completion will be awarded to those finishing the course with a final score of 75% or higher.
- In addition, ACSI teachers who pass the course can receive 2 ACSI-accredited Continuing Education Units (CEUs). (A \$20 fee will be assessed for CEU processing.)
- Students should expect to spend 6–8 hours per lesson watching the videos, reading the articles, asking questions in the forums, and taking the quiz. Complete the coursework at your own pace within three months.
- The advanced courses are open for enrollment but build on information from the CAP 101 Foundations in Creation Apologetics course. Students are expected to have a firm grasp on presuppositional apologetics to be successful in any advanced course.
- Parents or teachers seeking to use this course for high school credit can consider this the equivalent of one-half semester of social studies credit.

Goals

Upon completing the course, students will be able to:

- State the basic concepts behind genetics, mutations, and natural selection.
- Recognize alleged evolutionary relationships and the evidence that is claimed to support them.
- Explain mutations with respect to DNA and genetic information.
- Refute the claim that mutations are the “raw material” for the evolution of life on earth.
- Relate the process of natural selection to speciation as it has been observed in nature.
- Identify “icons of evolution” and critically analyze how they are misused to convince people of the “fact” of evolution.
- Relate the history of evolutionary theory to culture and society.

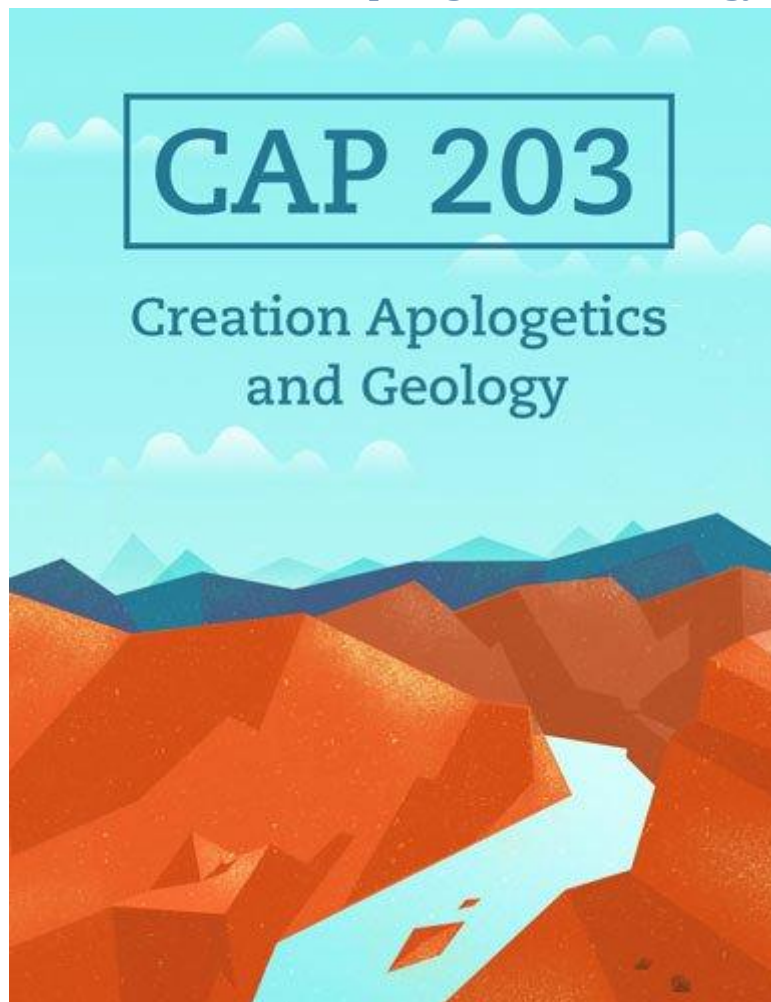

Expectations

- A certificate of completion will be awarded to those finishing the course with a final score of 75% or higher. In addition, ACSI teachers who pass the course can receive 2 ACSI-accredited Continuing Education Units (CEUs) for an additional fee at registration.

FRLC Library Creation Science & Apologetics

Materials Information

Strengthen your walk and deepen your understanding of the integrity and authority of Scripture. No other document in history makes the bold claims the Bible does, and no other document has the integrity of the Bible. This 7-lesson course will teach you how to defend the young age of the universe and demonstrate the reliability of the biblical accounts of astronomy. Other topics will include the “problem” of distant starlight, the existence of extraterrestrial life, and problems with the big-bang hypothesis. God has created the heavens to declare his glory and this course will equip you to proclaim that message.

This course builds on the ideas presented in the Foundations course (we recommend CAP 101 Foundations in Creation Apologetics be completed before any advanced course). The principles of presuppositional apologetics will be used to dive deeper into each topic in this course. The Institute for Creation Research (ICR) also has a **School of Biblical Apologetics**, as listed below:

FRLC Library Creation Science & Apologetics Materials Information

ICR's School of Biblical Apologetics: A Different Approach

James J. S. Johnson, J.D., Th.D.

The Christian world overflows with schools and seminaries that teach the particulars of the Bible. So why did the Institute for Creation Research open its own apologetics school in 2009? For the simple reason that ICR offers an emphasis that is sadly missing in many Christian educational institutions these days—a commitment to biblical creation tenets.

ICR's School of Biblical Apologetics (SOBA) teaches biblical education and apologetics with dedication to distinctive biblical creation tenets and does so with the credibility of more than 40 years of scholarship, multidisciplinary research, and ministry experience.¹ This teaching is framed by the priority that the Lord Jesus Christ is preeminent in all things (Revelation 4:11). SOBA's Bible-honoring faculty is committed to the truth of Genesis and agrees with ICR's biblical tenets regarding the creation account, Adam's original sin in Eden, and the global Flood. As its name proclaims, SOBA promotes biblical apologetics, a phrase chosen to emphasize the real source of knowable truth—Holy Scripture.

FRLC Library Creation Science & Apologetics Materials Information

Yet, SOBA is not a “classical apologetics” school. Such schools may teach what they call “Christian apologetics,” but their curriculum often emphasizes how one particular Christian says one thing about a given subject, this other Christian teaches that, and another explains it in yet a different way. In the tradition of the closed-Bible “rationalism” of the deists, classical apologetics tend to emphasize the vocabulary of theistic philosophy and spend less (or no) time using Bible concordances and interlinear Bibles in research.

Furthermore, unlike ICR’s faculty, many classical apologetics proponents are theistic evolutionists because their epistemology (understanding of truth and how to know it) is flawed. Many claim “All truth is God’s truth” and then glibly swallow evolutionary Big Bang speculation as if it were as true as God’s Word! This approach to apologetics fails because it attempts to “defend truth” before learning what is really true.

Classical apologists frequently blend the fallible findings of modern science with their biblical interpretation by equating the revelation found in nature with that provided by Scripture. But nature is not “the 67th book” of the Bible. Nature is fallen. Nature is not completely known or completely knowable. Only the Bible is a complete and perfect source of truth. Scripture has unchanging objectivity because it is composed of readable words that God selected to provide true information.

Moreover, scientific knowledge is almost always incomplete because scientists are not omniscient. Many temporal facts that are accepted as true are transitory—they change with time! Thus, what we can learn from “science” is not quality-controlled by omniscience and immutability as the truths in Scripture are. Yes, science has a purpose, but science cannot replace the Bible as God’s written revelation of perfect truth. The literal text of Scripture is inspired—it has power in it!

How is this relevant to SOBA’s curriculum?

SOBA’s training emphasizes commitment to real truth by intentionally following Ezra 7:10: “For Ezra had *prepared* his heart to *seek* the Law of the LORD, and to *do* it, and to *teach* statutes and ordinances in Israel [emphasis added].” Note the four priorities for godly educators emphasized in that verse: (1) preparing his/her heart to honor God, (2) seeking out (researching, analyzing) God’s truth, (3) personally doing (i.e., practicing) God’s truth, and (4) teaching (i.e., carefully transmitting) it to others. SOBA’s curriculum focuses on each of these categories.

Are those four priorities all it takes to teach and defend God’s truth properly? No. The teacher is the subject for those action verbs and therefore is responsible to drive the focus based on God’s truth. The teacher has no truth to teach unless and until God provides it! God must reveal “the law of the LORD.” Until He does, we don’t and can’t know it.

FRLC Library Creation Science & Apologetics Materials Information

Biblical apologetics, therefore, start with recognizing and analyzing the perfect revelation record of truth that God has given: Scripture. Comprehending that foundation is where ICR's SOBA curriculum begins.²

Item ID: P4 (The New Creationism - Building Scientific Theories on a Biblical Foundation)

- **Format:** Book – 304 Pages
- **Author:** Paul Garner

his book has been written in the conviction that the first eleven chapters of the book of Genesis – the Bible's book of beginnings – provide a trustworthy and accurate account of the early history of the universe.

In the increasingly secular age in which we live, it is all too easy to forget that the major disciplines of science were founded by men of broadly Christian convictions. Their names are perhaps familiar to us – Boyle, Ray, Hooke, Newton, Faraday – but there is often an embarrassed silence concerning the spiritual beliefs that motivated these scientific giants.

Item ID: P4 (The New Creationism - Building Scientific Theories on a Biblical Foundation), cont'd

Like the astronomer, Kepler, these men perceived that in their scientific insights they were thinking God's thoughts after him'. Today, however, there is a sense of collective amnesia about the religious motivations of these men.

PAUL GARNER is a researcher and lecturer with Biblical Creation Ministries. He has a degree in Environmental Sciences (Geology/ Biology) and is a Fellow of the Geological Society. He is married with two children and resides in Cambridgeshire, England.

- **Dimensions:** 6" x 9"
- **Length:** 220 pages
- **Technicality:** Layman
- **Ages:** Teens – Adults
- **Publisher:** Master Books
- **Published:** 2012

This anniversary edition is an even more powerful, eye-opening book for the church!

Ken Ham once again takes the lead in pointing out the looming precipice that thousands of church leaders are rushing toward; a denial of the full authority and accuracy of the Bible from its very first verse. Originally published in 1987, *The Lie* took a bold stand which became prophetic. Ken warned the church about the destructive effects of compromise with evolutionary/millions-of-years ideas. He warned that compromise in Genesis would undermine Scriptural authority in the culture and erode confidence in the infallibility of God's Word. Today, Christians increasingly doubt the Bible's reliability. So then do those who are considering placing their faith in Jesus, the Creator.

FRLC Library Creation Science & Apologetics Materials Information

Item ID: W7 (The Lie - Evolution/Millions of Years), cont'd

The issues are of critical importance when you realize that today we have Christians not only confused when it comes to Genesis and the age of the earth, but now even the reality of hell, Adam as a real person, and Christ's own words about creation, marriage, and more. One compromise just leads to another—and it has to end if we want to leave a legacy of faith to future generations!

“Now that I have updated, revised, and expanded *The Lie*, I believe it's an even more powerful, eye-opening book for the church—an essential resource to help all of us to understand the great delusion that permeates our world! The message of *The Lie* IS the message of AiG and why we even exist! It IS the message God has laid on our hearts to bring before the church! It IS a vital message for our time.”

Christian values, traditions, and terminologies that were once common knowledge have become a thing of the past. *Gospel Reset* will help you understand how to effectively reach the lost with a message of salvation that actually makes sense.

The culture has changed! Christian values and traditions, even terms that were once common knowledge, have become a thing of the past. Many in today's important millennial generation say that the typical Sunday morning sermon sounds more like a foreign language than a clear call to salvation.

In this compelling new book, Ken Ham passionately communicates the soul-saving essentials of creation evangelism using two very different sermons from the book of Acts. Each was designed to reach a different audience—the churchd vs. the unchurched, Jew vs. Gentile—to effectively reach the lost. *Gospel Reset* is perhaps the most strategic and timely book on evangelism today. A must-read for family and church leaders.

- Reveals the social and moral consequences that our modern culture's war on the Bible is having on society.
- Provides powerful insights on how to make salvation relevant to today's millennial generation.
- Illustrations quickly communicate proven ways to excite and equip church members to evangelize and defend their faith.
- " Things have changed, yes even the world we live in. However, our message is unchanging and Ken Ham gives clear, concise, and compelling hope to reach this changing world with the good news of Christ. "
- —**Dr. Johnny Hunt - Sr. Pastor First Baptist Church Woodstock**
- " When we understand the times, we will know what to do. This even includes the way that we communicate the gospel with other people. The Gospel Reset book by Ken Ham presents the enormous challenges we face today, but thankfully, it also gives us practical ways we can communicate this gospel in a relevant way effectively. Anyone who desires to share Christ with other people or proclaim God's Word in today's world, needs to read this book. Get one for yourself and then share another one with a friend. "
- —**Dr. Ronnie Floyd - Sr. Pastor Cross Church**
- " Ken Ham has provided an incredibly urgent, clear and compelling resource that will help Christians everywhere to be strong in their faith and able to speak Gospel truth in today's culture. As a pastor I am very excited to have this book as I know it will help our church in its mission to reach our generation for Christ. "
- —**Dr. Brad Jurkovich - Sr. Pastor First Baptist Church Bossier City**
- " The unchanging Gospel of Jesus Christ is the hope of our ever changing world. But what if our presentation of it keeps people from hearing it or responding to it? That's the premise of Ken Ham's new book. The majority of our young people leave the church when they leave home and never return. Why? Because they were never taught how to defend their faith or how to deal with their doubts. What if we could change that? What if we could equip believers in every age and stage of life to boldly and effectively share the Good News and stand up for the truth of God's Word instead of standing down when the Bible is under attack? The church no longer has home field advantage in the world. But we can still win and Ken Ham shows us how. "
- —**Barry Cameron Sr. Pastor - Crossroads Christian Church - Grand Prairie, Texas**
- " Western culture is consistently moving farther and farther from an understanding of the gospel of Jesus Christ. In large part, this is due to the fact that many today do not have a foundational trust of the Bible. In Gospel Reset, Ken Ham builds the case for presenting the gospel from Genesis to reach this current generation. Every follower of Christ will benefit from reading this book. "

This unique, substantial, historical, theological, and exegetical defense of the literal history of Genesis 1–11 is designed for seminary professors and students, pastors, and missionaries, as well as laypeople and students who want to dig deeper into Scripture.

Fourteen scholars present rigorous biblical and theological arguments in favor of a young earth and global Flood and also address a number of contemporary old-earth interpretations of Genesis. This unique, substantial, historical, theological, and exegetical defense of the literal history of Genesis 1–11 is designed for seminary professors and students, pastors, and missionaries, as well as laypeople and students who want to dig deeper into Scripture. Must reading especially for those inclined toward accepting millions of years.

Here are a few of the amazing construction details, you will discover:

- The skills and techniques of the Amish craftsmen primarily responsible for construction of the timberframe structure
- How the 3-million board feet of wood used could be laid out over 600 miles from Kentucky to Philadelphia
- The structure is so large, it is permitted to hold 10,000 people
- The size of the structure is 510 feet long; 85 feet wide; 51 feet high based on the Bible's dimensions

Though Noah built the Ark in 55–75 years, we didn't want to take that long! To build this engineering masterpiece quickly, God brought together some of the most skilled craftsman in the USA, including crews of Amish and Mennonite woodworkers from hundreds of miles away. This exciting new themed attraction opened to the public on July 7 and has received huge interest from media worldwide. Unbelievers are often like the scoffers of Noah's day, but after you've perused this book you will understand how Noah and his family may have constructed the craft that ferried man and animals from the original perfect earth to the scarred planet on which we live today.

How Many Animals Were on the Ark?

How was it possible for Noah to bring aboard 2 million animals on the Ark, or were there perhaps less than 7,000? You'll find the answer to one of the most difficult questions concerning the long voyage of Noah's Ark. Discover why Noah probably needed only a few thousand animals, and how he and his family could have cared for all life on the Ark during the Flood.

Does it matter if Adam & Eve were real? This documentary, *DNA Battles* explores this intensely fierce battle featuring leading scientists and theologians. Get equipped to encourage others to trust God's Word.

Does Nuclear DNA Support Evolutionary Predictions?

The Bible says there was an original first couple. But is that really true? *Christianity Today* magazine reported several positions regarding Adam and Eve. This documentary deals primarily with the belief of Dr. Francis Collins and others, who say that Adam and Eve were just the figurative representatives of a collective of some 10,000 hominids—if they existed at all. The human population, they say, was definitely never as small as two individuals. But is that what the data—outside of the Bible—says? What has research revealed about mitochondrial DNA? Does nuclear DNA support evolutionary predictions? This alarming documentary from Evidence Press features various creation scientists and theologians.

Theistic evolution, and the attack on a literal Adam and Eve are spreading through churches—maybe even your own! Get equipped to encourage others to trust God's Word with the answers you'll find in *DNA Battles*.

From the garden of Eden to our world today, there is just one race—the human race—and once you understand that, racism loses its power!

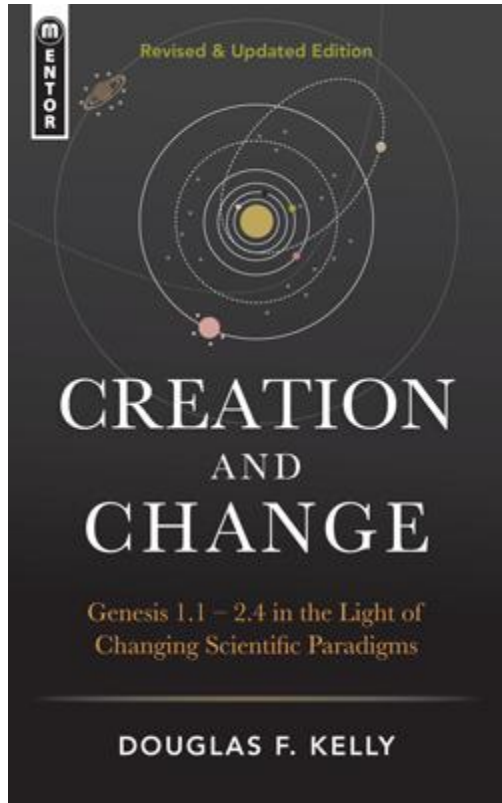

Discussions about race are inundated with political correctness and cultural buzzwords. Yet, it is critical to have this difficult conversation with children today in a way they can understand – and God has given us a simple, powerful answer in the Bible.

Apologetics powerhouse Ken Ham provides children important insight and a biblical foundation that combat the evolutionary nonsense of multiple human races. From the Garden of Eden to our world today, there is just one race – the human race – and once you understand that, racism loses its power!

- Brings a uniquely biblical and easy-to-understand perspective to the cultural issue of racism
- Sweeps aside popular talking points to get to the real heart of the issue as a matter of sin
- Upends stereotypes by sweeping away the flawed science of Darwin's worldview

Darwinism has ruled science for over 150 years, but few today know the details of its less-than-stellar track record. Its proponents offer false predictions, plug colossal gaps of evidence with pure imagination, and, in some unfortunate cases, even use it to justify taking innocent lives. In *Twenty Evolutionary Blunders*, Harvard graduate Randy Guliuzza shines a light on many of these shortcomings.

Learn how *Hox* genes contradicted Darwinist predictions, fossil forgery is routinely tolerated in the evolutionary community, “useless” biological organs turn out to be functional, and other interesting stories from the history of evolutionary theory. Rather than supporting Darwin’s theory, an honest look at the evidence consistently undermines it.

Written in twenty brief chapters, this book offers an insightful but broad evaluation of Darwinism and its scientific merits.

This illustrated lecture explains that the current view of bird evolution via dinosaurs is far from probable and goes against all observable evidence.

Evolutionists have long argued that birds evolved by chance from reptiles. However, in this lecture, you will see that no two classes of vertebrates differ more dramatically than do reptiles and birds. Unlike the dinosaurs, from which birds are said to have evolved, birds are truly “formed to fly.” With the aid of a scanning electron microscope, Dr. Menton examines the feathers of birds and compares them to reptile scales. Contrary to the claims of evolutionists, feathers are profoundly different from scales in every respect. It is biological nonsense to claim that one evolved from the other by chance.

Genesis records the history of a worldwide watery cataclysm that destroyed almost all land-dwelling creatures and completely reshaped Earth's surface. Cultures around the world retain the memory of this great deluge, but secular geologists insist it's a myth - there never was a global flood. But they've never looked at the rock record across multiple continents simultaneously.

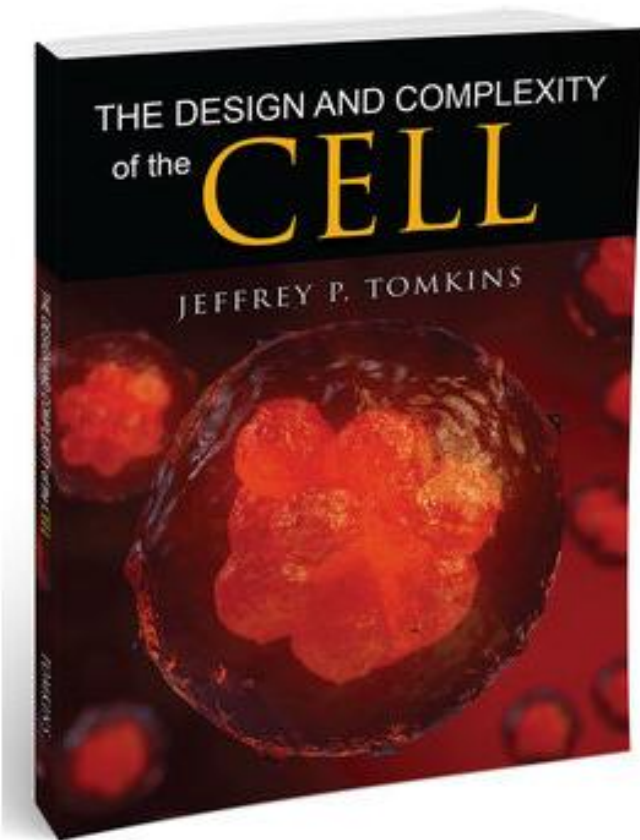

ICR geologist Dr. Timothy Clarey does just this in *Carved in Stone: Geological Evidence of the Worldwide Flood*. With an oil industry background, Dr. Clarey utilizes his understanding of oil well and seismic data to see what the rock strata actually reveal about Earth's past. Many people might be surprised by what he finds.

Rather than reflecting millions or billions of years, Earth's rock record demonstrates that a global flood occurred just thousands of years ago. *Carved in Stone* showcases the geological data compiled across North America, South America, and Africa, with more discoveries to come as Dr. Clarey works through the remaining continents.

The functions within the cells of our bodies are foundational to our existence. Understanding these functions has made the environment and the processes of our lifestyles healthier, more enjoyable, and more productive. All of humanity has benefited from the life sciences and the scientists who have dedicated their considerable skills to uncovering the functions and processes of the multifaceted variety of cells.

Although scientists have discovered, documented, and developed wonderful insights about the complex information, precise sequential processes, and unique interwoven controls within cells, there is a huge chasm among scientists when they try to understand how these highly efficient processes got started in the first place. The majority of scientifically trained biologists and geneticists are taught that the apparent design that is observed in cells is the result of only

random chemical and energy processes operating over eons of time. Such a belief system prompts their thinking to rest on purely natural logic, producing materialistic conclusions - and often ignoring or marginalizing the implications of careful engineering and design.

There are, however, multiple thousands of scientists who accept the Bible's message that there is a Creator who planned the creation, designed the intricate engineering efficiencies in that creation, and then built the product: our planet and its wonderfully unique life and functions. That belief system not only fits empirically with what is observed (design, precise function, operational efficiencies, etc.), but provides insight that enables creation-based scientists to grasp the significance of the information more readily - without having to invent a supposed eons-long story for the development of what is actually observed.

Dr. Jeffrey Tomkins and his contributing colleagues have provided an excellent resource that will document and help explain the intricate processes of cells and give keen insight for "clearly seeing" the obvious hand of the Creator in the "things that are made" (Romans 1:20).

Taking a factual and scientific look at the evidence for evolution, physicists, biologists, and chemists conclude that evolution may offer no more evidence than traditional religion, and factually, it may lag behind.

Important questions about the big bang theory, radioactive dating of rocks, light from distant stars, and the fossil evidence for evolution are discussed in detail. Reopening the origins debate with straightforward and wide-ranging analysis of the issues confronting both the scientific community and the general public, these essays examine the entire approach to science education and are essential reading for educators, politicians, parents, and students.

This book reveals humanity's shared ancestry as never before! Most Christians are familiar with the biblical account of Babel, but after the dispersion, there appears to be a void until hundreds of years later when empires like Rome and Greece arose. Discover the truth of the people groups and the civilizations that spread across the earth. All trace their roots back to Babel as well as to the sons and grandsons of Noah!

Many of today's scholars write off what occurred at the Tower of Babel as mythology and deny that it was a historical event. Beginning with the biblical accounts, author Bodie Hodge researched ancient texts, critical clues, and rare historic records to help solve the mystery of what happened to the families that built Babel. Teens and adults can use this layman's friendly overview of what happened during the Tower of Babel dispersion, and beyond!

Twenty five years ago Caryl Matrisciana and Roger Oakland came out with their co-authored book *The Evolution Conspiracy*. The book was published by Harvest House. While the creation/evolution debate was important back then, it is substantially more vital today. The western world's push to have evolution taught in every public school and secular college has been successful, and unbeknownst to most, the effects of this invasion of evolutionary thinking have completely changed the morality and the spirituality of our present-day society. This new edition also includes an updated foreword by Dr. John Morris, President Emeritus of the Institute for Creation Research (ICR). We believe every Christian family should read this book. Don't send your children or grandchildren into the world without them having a solid understanding of creationism vs. evolution and how the "evolution conspiracy" has affected the world and even the church.

It's a bold title: *The Ultimate Proof of Creation*. But is there such a thing? There are many books that contain seemingly powerful arguments for biblical creation. But is there an ultimate proof of creation?

There is an argument for creation that is powerful, conclusive, and has no true rebuttal. As such, it is an irrefutable argument-an "ultimate proof" of the Christian worldview biblical creation. Master the method outlined in the following chapters, and you will be able to defend Christianity against all opposition.

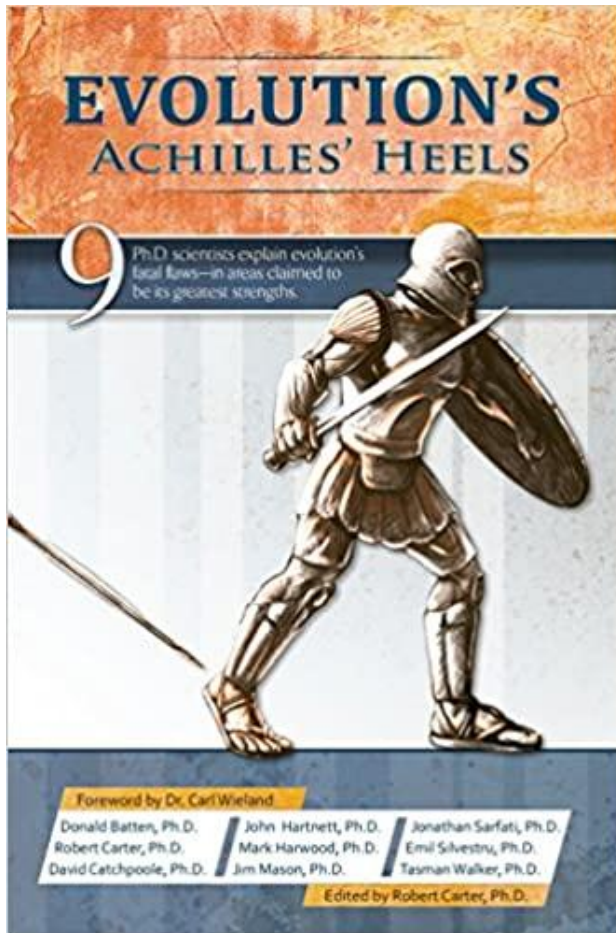

- Learn how to apply the ultimate proof in dialogues with evolutionists, how to spot logical fallacies, and biblical examples of defending the faith
- Discover the nature of scientific evidence and its proper role in the origins debate
- An exceptional book for pastors, ministry leaders, seminary attendees, and students of religion and philosophy

This book is a complete guide to defending the Christian faith, emphasizing the defense of the Genesis account of creation, built on techniques that have been developed over many years and presentations. They are not difficult to apply when you learn how to do it properly.

Ready to move beyond the circular arguments? It is time to get to the real heart of the issue and rationally resolve the origins debate. It is time to discover *The Ultimate Proof of Creation*.

This powerful book (illustrated in full colour) exposes the fatal flaws of evolutionary thinking. Like no other work that we are aware of, it is authored by nine Ph.D. scientists to produce a coordinated, coherent, powerful argument. All of the authors received their doctorates from similar secular universities as their evolutionary counterparts. Each is a specialist in a field relevant to the subject written about: Natural selection, origin of life, geology, genetics, radiometric dating, the fossil record, cosmology, and ethics.

Evolution's Achilles Heels directly demolishes the very pillars of the belief system that underpins our now-secular culture evolutionary naturalism. It's coupled with the Biblical command to reach the lost with the Bible's Good News. In a nutshell, it's a comprehensive outreach tool like no other.

The nine Ph.D. scientists are Donald Batten, Robert Carter, David Catchpoole, John Hartnett, Mark Harwood, Jim Mason, Jonathan Sarfati, Emil Silvestru and Tasman Walker. Foreword by Carl Wieland and edited by Robert Carter.

How Should Christians Think?

Surrounding us is a swirling hurricane of change. At a breathtaking pace, we're seeing the culture overthrow any semblance of biblical morality and a tide of immorality is taking its place. How should Christians think (and teach their children to think!) about the hot-button issues of our day such as gay "marriage," transgenderism, racism, and the issues that are quickly on their way? By starting our thinking with God's Word in every area. Get equipped to think biblically and stand boldly for the gospel in this presentation.

How Should the Church Impact the Culture?

Why isn't the church impacting the culture like it did in previous generations? It's a foundational problem! Much of the church is not standing on the authority of God's Word, beginning in Genesis. Without a firm foundation, many are blown about by the chaotic winds of our culture. Discover the foundation for all our Christian doctrine, how and why we should stand boldly on our foundation, and how the church can truly make a gospel impact on our culture in this presentation by Ken Ham.

Are Humans Related to Chimps?

This presentation looks at two central evidences that are commonly used to support shared ancestry. Dr. Purdom shows that human and chimp DNA sequences are in fact quite different and that human chromosome 2 is not the result of a fusion of two ancestral chromosomes. All humans have descended from an original couple specially created by God as described in Genesis.

Did Jesus Really Rise from the Dead?

The apostle Paul describes the resurrection of Christ as central to the Christian faith in 1 Corinthians 15. Without the bodily resurrection of our Lord, “our faith is futile and we are still in our sins” ([1 Cor. 15:17](#)) and “we are of all people most to be pitied” ([1 Cor. 15:19](#)). But many skeptics of Christianity say Jesus did not rise from the dead. How can Christians counter these claims? Is there evidence Jesus did indeed rise on the third day? Equip yourself to defend the truth and historicity of the bodily resurrection of our Lord in this powerful presentation.

In 1859, Charles Darwin wrote *On the Origin of Species*. Even now, people believe Darwin's flawed ideas somehow explain the world around us. Simply put, they don't. But Dr. Nathaniel Jeanson's *Replacing Darwin* does.

Science has come a long way since Darwin made his claims in the 1800s. Several remarkable discoveries shed new light on the earth's origin. In addition, much of the data Darwin presented for his idea no longer seem like clear evidence for evolution. Dr. Nathaniel Jeanson effectively and authoritatively documents the newest scientific discoveries, refutes Darwin's claims, and presents evidences that support a compelling alternate explanation for the origin of species.

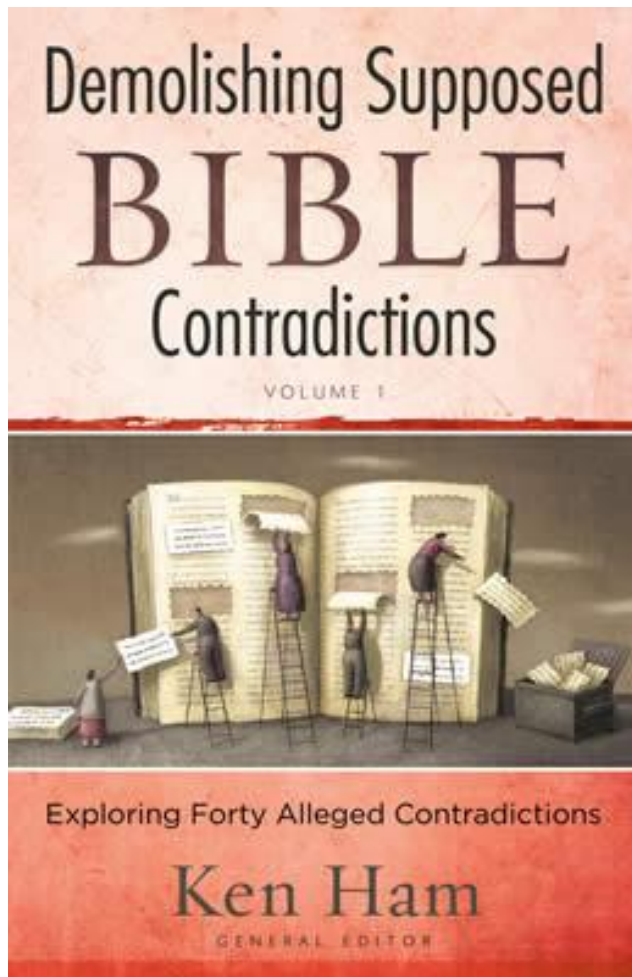

Dr. Nathaniel T. Jeanson earned his BS in molecular biology and bioinformatics from the University of Wisconsin-Parkside and his PhD in cell and developmental biology from Harvard University. His research findings have been presented at national and regional conferences and have been published in peer-reviewed journals, such as *Blood*, *Nature*, and *Cell*. Since 2009, he has been actively researching the origin of species, both at the Institute for Creation Research and at Answers in Genesis.

Do you have concerns about Bible passages that have bothered you for years?

This book is based on many of the most-asked questions about supposed Bible contradictions and errors. Most of the topics are drawn from questions submitted via our extremely popular website.

Demolishing Supposed Bible Contradictions is an exciting, lay-friendly resource designed to give quick yet thorough answers to questions about more than 40 of the most common supposed mistakes in the Bible. Edited by Ken Ham and co-written by ten leading apologetics speakers and authors, a few of the dozens of supposed contradictions include:

- In the Old Testament, God wipes out entire cities and unleashes great suffering. Yet the Bible teaches that God is all-loving.
- God warned Adam not to eat the forbidden fruit or he would die. But when Adam disobeyed and ate, he lived a full life.
- Scripture claims that pi equals 3. Any high-school math student knows that's not true.
- A prostitute is praised for lying in James 2, yet the Ten Commandments forbid it.

Behind every supposed biblical error there is a powerful truth waiting to be found!

Can God be tempted? Why don't Christians follow all the Old Testament laws? Is marriage good or bad? All these and more are questions that appear to point out a problem in the Biblical text. Too often people focus on what seems to be contradictions or errors in the Bible, using them to create doubt in the minds of believers or act as stumbling blocks in trying to present the Gospel.

It is important to resolve these issues to reassure people that the Bible is inerrant. Discover over 40 powerful explanations proving the Bible is still accurate and without error for questions such as:

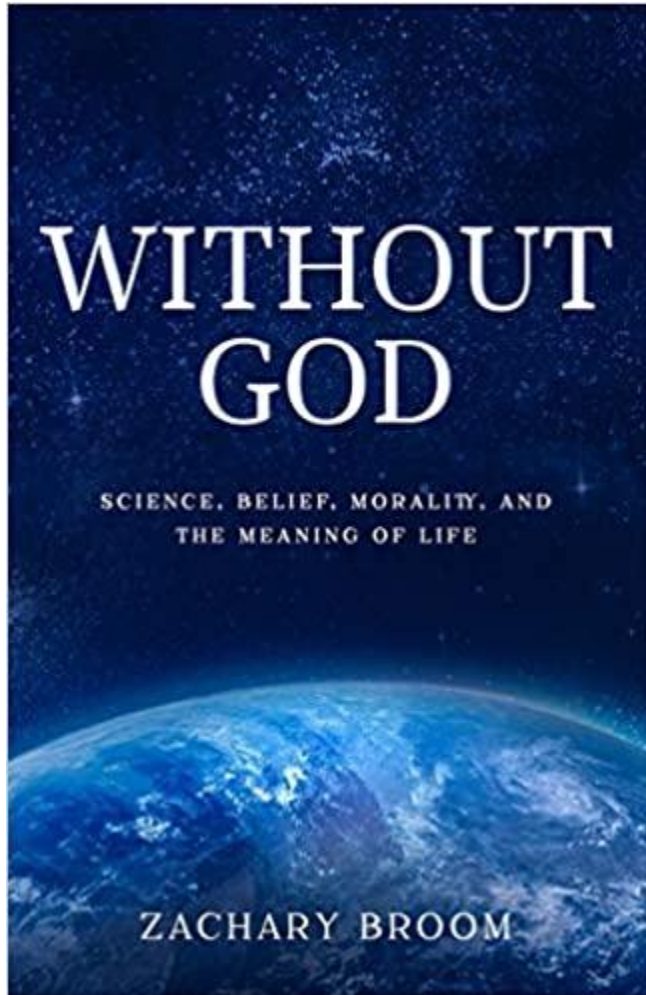

- What is God's name in the Old Testament?
- Is the earth immovably set on pillars or hanging on nothing?
- Is all Scripture inspired by God, or is some of it the opinion of the writers of Scripture?
- After His resurrection, did Jesus first appear to the eleven disciples on a mountain in Galilee or in Jerusalem behind closed doors?

Explosive and insightful Biblical evidence disproves the toughest of critics while bringing to light the indestructible power of God's Word. Demolishing Supposed Bible Contradictions Volume 2 accepts the critics' challenge, taking on some of the most difficult issues, helping to strengthen the faith of those who love God. Too often the Bible is dismissed by people who have heard it is simply filled with myths and mistakes, and many have abandoned the faith, not understanding there wasn't an error at all.

Excellent for both adults and teens.

Without God, how can we have hope or make sense of such a broken world?

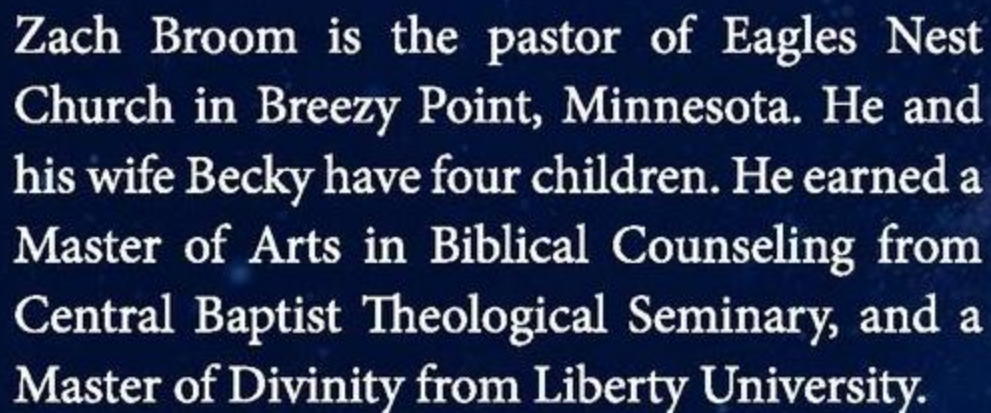

Skeptics believe we don't need God to understand reality, and that science and reason hold the keys to building a better world. Faith is blind, and there is no credible evidence for God's existence—especially the God of the Bible. Therefore, science and religious belief are deeply incompatible, and God is no longer relevant to our modern world.

But if there is no God, how can our lives have any meaning? How can we make sense of good and evil, truth, justice, beauty, rationality, or even science itself? By engaging with popular atheists and skeptics, both new and old, as well as many of Christianity's most brilliant writers, pastor and author Zachary Broom demonstrates how not only is there powerful evidence for God's existence, but without Him, everything begins to unravel.

Item ID: P11 (Without God - Science, Belief, Morality, and the Meaning of Life), cont'd

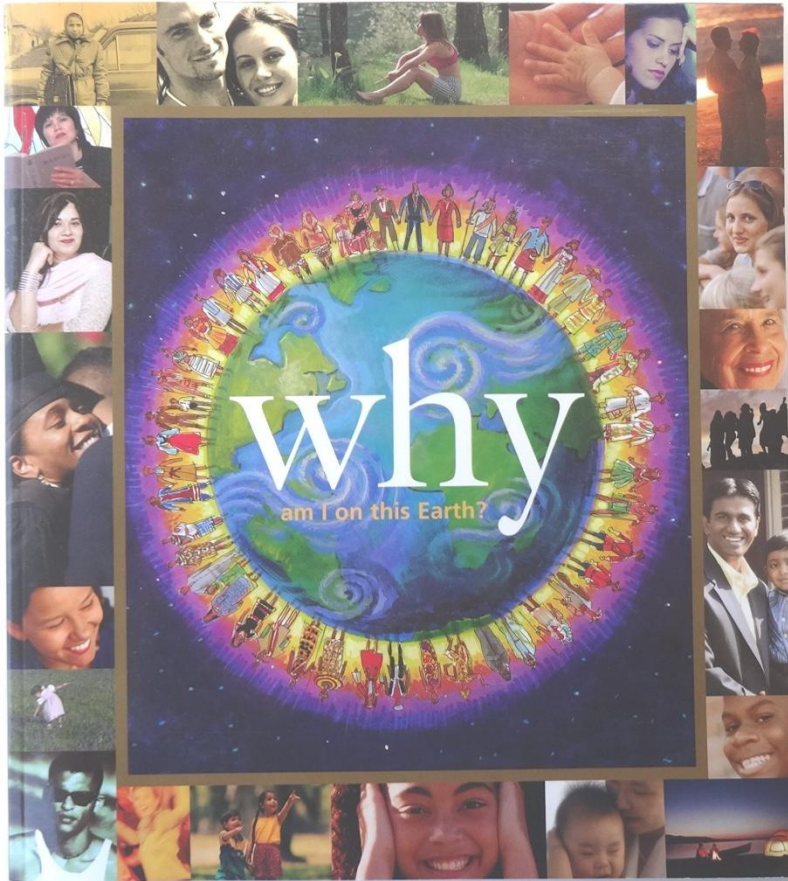

Instead of setting out to “prove” God’s existence, Without God carefully and seriously engages skeptic’s doubts and common arguments against God, making use of philosophy, science, literature, and real-life conversations, as well as the author's own struggles and doubts. Whether you believe in God or not, you will be challenged to wrestle carefully with life’s most important questions in a way that will lead you to a greater respect for the beliefs of others.

Zach Broom is the pastor of Eagles Nest Church in Breezy Point, Minnesota. He and his wife Becky have four children. He earned a Master of Arts in Biblical Counseling from Central Baptist Theological Seminary, and a Master of Divinity from Liberty University.
